

Notice to Subscribers

As the present proprietors of the Tribune will turn the office over to the new owners on the first day of March, it would be a good thing if every person who owes a year's subscription to the paper would drop in during the coming week or ten days and settle the matter up. A rush of work has prevented us from sending out statements for our subscription accounts during the present year, but every person who takes the paper knows that there is a year up every time the seasons roll around, whether he gets a bill or not. Don't be at all backward about paying up.

We deliver flowers to any address in the United States or Canada within a few hours of your placing the order.

Still Fighting Kaiserism in Industry at Nekoosa and Port Edwards, Wis.

In these corporations owned villages the paper makers have been out on strike for the past eight months. Battling against great and unusual odds these workers have stood firm against all the attacks of the exploiters.

They are striving to abolish the old 11 and 13 hour system and other almost intolerable conditions. The workers are bent demanding that what is in force in practically every paper mill in the State.

After eight months of strike these workers are as determined as ever to bring the strike to a successful conclusion. Right and Justice are their guiding stars. To be successful they must have the moral and financial support of all the organized workers of this land and especially of the State of Wisconsin.

The battle of Nekoosa and Port Edwards is not only one of a few workers striving for a greater share of the wealth they produce and the right to live as human beings but it is the great battle of organized Paper Manufacturers seeking to crush the organized labor movement of the State of Wisconsin. It is therefore the fight of all the workers.

Back those who are fighting the battle for all of us and back them to the extent of your finances.

Send all contributions to E. R. Schrieber, Treasurer Strike Committee, 554 Tenth Ave., So., Grand Rapids, Wisconsin.

GIRL WAS MARRIED HERE;

DIED ONE WEEK LATER

Two weeks ago Miss Daisy Adams, who lived near Pittsville, and Mr. Harry Reunbeck, of Clark county, scoured the city to find some one to marry them. They located Judge Cotts, who performed the ceremony. Six days later Mrs. Reunbeck died, after a short illness of pneumonia, at the home of her parents near Pittsville. The young couple were on their wedding tour when the bride was taken sick. She was taken to the home of her parents, living between life and death for two days, and passed away last Wednesday night.

LEGION WILL HONOR FAMILIES OF HEROES

Grand Rapids boys, and the boys from this part of the county who gave their lives in France for their country, will be honored at Memorial Services which will be held Sunday afternoon, February 22nd, under the auspices of the American Legion. At the service the families of the heroes will be presented with the engraved memorial parchment presented by President Polk. Post Commander R. M. Gibson has received a few of the memorial parchments in French but when translated explain that they are given in honor of the American boys who laid down their lives on French soil. They carry a very fitting tribute to the boys from the French people and are a thing that can long be kept in the homes of the families who lost one of their number abroad.

While the details of the program are not complete there will be music, speakers and subjects taken up suitable to the occasion. It has not been decided where the presentation will be held, this to be announced at a later date.

TRIBUNE SELLS OUT TO WM. F. HUFFMAN

The Grand Rapids Tribune was sold last Saturday morning to Wm. F. Huffman, editor and publisher of the Grand Rapids Leader, the new owner to assume control of the paper, job business and other matters. The deal came as rather a surprise to Grand Rapids people. Mr. Huffman having but recently purchased the Leader from its former owner. With the acquisition of the Grand Rapids Tribune Mr. Huffman combines the Grand Rapids Leader with the Tribune, the Leader being the only daily in Wood county, and the Tribune one of the strongest weeklies. The Tribune had what was considered the best equipped printing office in Wood county, its machinery being all new and modern, and had a circulation that was built up only after twenty years of energetic and progressive newspaper work.

Mr. Huffman will move his plant from the Tribune building and will continue to publish both the daily and the weekly in the new place. He has a new Goss Comet press, a newspaper press capable of turning out several thousand complete newspapers an hour, printed, folded and ready for delivery. With the new equipment and the completion of its installation Mr. Huffman will be in a position to produce an even better paper than he has been in the past, and will have an exceptionally well equipped plant. Mr. Huffman plans to continue the Tribune as well as in the newspaper building as well as in the printing plant, being especially well equipped to carry on a high class job printing business.

The Grand Rapids Tribune has been conducted by the firm of Drumb & Sutor for the past twenty years, and under their management grew from a small weekly with a circulation of about 575 subscribers to one of the strongest weeklies in the county. During the growth of the industry the equipment has been on a par with the best in the business, and a very valuable one. When Messrs. Drumb & Sutor took over the plant in 1900 it was owned by L. B. Brundage, who had conducted the paper for a number of years, but who was compelled to sell out on account of ill health. It was a six column paper at that time, and was printed in the old Tribune building on First Avenue north, the office being where the present park is in the rear of the Mackinac block on the Salween. The Tribune was rather in the predominance of the street and the tough frequenters that habitually congregated in that neighborhood were a constant nuisance to the office. Ten years ago the proprietors of the paper completed the building now occupied by the paper and it has since been in its present site on First Avenue south.

Quoting from the first issue of the paper published under the firm of Drumb & Sutor, the editorial page stated: "When the great political campaigns come on, as they do periodically in this great nation, we shall endeavor to make it clear to our readers why we think our side should win, but we will not stoop to the 'mud wing' operation which is indulged in by many newspapers at this time. The interests of Grand Rapids and Wood County will be our interests, and anything we can do will be cheerfully undertaken in order to bring the name of our city before the public in the best light. After twenty years of publishing the Tribune it is probable that the subscribers are thoroughly familiar with the paper, and they will be glad to see it continue to live and grow." Mr. Huffman, who assumes the ownership of the business is a young newspaper man of excellent moral character, industrious and progressive, and doubtless continue the rebuilding of the business in Wood county. While he is a comparatively new man in this line he has already made a large circle of friends here and is recommended very highly to the old friends of the Tribune.

JACKSON'S LECTURES PLEASURES

Dunn County News—Monomonic, Wis., Feb. 18.—The lecture of the Wood County Training school added to his already well-established reputation here as an entertaining and instructive speaker, by delivering his lecture on the night of Sunday, Feb. 14, at the Hotel de Ville. As in his last talk, Prof. Jackson displayed an intimate knowledge of the common people in the counties he has visited, and some of his anecdotes were pathetic while others sparkled with humor. He gave an interesting story of the Alps and his account of the Passion Play at Oberammergau is never to be forgotten. New side-lights were thrown on life at Venice and here again the professor showed his unusual faculty of getting in with the common man, for he struck up an intimate friendship with a gondolier, though neither could understand the language of the other. On his last visit, Prof. Jackson appeared under the auspices of the Knights of Columbus, and always was a welcome speaker in Monomonic.

Mrs. J. B. Arph was called to Mississippi the first of the week by the illness of Mr. Arph.

J. R. McLaughlin, the veteran cruiser, left on Wednesday evening with his pack and snow shoes for the northern part of the state to estimate some timber.

Mrs. Arthur Goodwin died at Wausau on Wednesday following an attack of pneumonia. She is a daughter of Mr. and Mrs. J. S. Slattery and formerly lived in this city where she was well known as Nellie Slattery.

Herman "Yuxor" Witt, a cousin and protégé of the famous wrestler, Fred Beall, defeated "Dag" Boy Crowley of Chicago in wrestling match at the Eagles Hall in Marshfield on Friday evening. Witt took the first fall in eight minutes and the second fall in forty minutes.

Lee B. Margery of the town of Saratoga was among the pleasant callers at the Tribune office this morning. Mr. Margery is taking the census out in his town, but reports that the roads are so bad that it is almost impossible to get around at this time.

LAURA PALMER AND HENRY CARLSON MARRIED TUESDAY

Miss Laura Palmer, of West De Pere, and Henry Carlson, of this city, were married Tuesday morning at ten o'clock at St. John's Episcopal church, Rev. Johannes Rockstroch, of that congregation performing the ceremony.

They were attended by Miss Margaret Johnson, a bridesmaid, while Samuel Carlson, a brother of the groom, was the best man. Following the ceremony there was a wedding dinner served for the bride and her immediate friends at the Dixon Hotel, the newlyweds leaving on the noon train for Milwaukee. The bride and groom, making their wedding tour to these cities before their return to Grand Rapids to make their home.

Both of the young people are very well known in Grand Rapids, the bride being the daughter of Mr. and Mrs. E. B. Carlson, who has been employed in Grand Rapids for a number of years. While here Miss Palmer made many friends who are pleased to hear of her marriage. Henry Carlson is a home boy, born in this city and a member of the firm of Carlson & Lawrence. Mr. Carlson has extended his business through Wisconsin and into other states, being a very successful young man with a large circle of friends here. He is wishing them every happiness in their future life.

SOLD GUERNSEYS AT AUCTION ON MONDAY

Monday, February 16, should be a red letter day in the Guernsey history of Wood County. On this day three carloads of cattle recently purchased in New York and Ohio were sold at auction. The buyers were parts of our county. Several men purchased their first pure bred females. The sale took place on the farm of A. P. Bean and Clark & Jackson. Due to cold stormy weather the sale was held in the barn, and it is impossible to accommodate all of the cattle in one barn. The crowd first went to the home of Mr. Bean and some 23 head that were housed there were sold. Half a dozen sleighs conveyed the crowd to the farm of Clark & Jackson and the sale proceeded.

All of the females purchased were sold, 33 head at an average price of \$400. Ten bulls and bull calves were also sold. Nineteen well bred bulls from the Anna Dean Farm, Burton, Ohio, were left to the buyers. It is impossible to accommodate all of the cattle in one barn. The crowd first went to the home of Mr. Bean and some 23 head that were housed there were sold. Half a dozen sleighs conveyed the crowd to the farm of Clark & Jackson and the sale proceeded.

Four females were purchased in New York and were to have been shipped by express but have not yet arrived. Judging from the sentiment of these present and from the number of Guernsey breeders that were not able to attend the sale due to weather conditions, I feel confident that one or two more carloads of cattle will be sold. The lowest price for a female was a month old heifer calf selling for \$260, the highest price was an eight year old cow weighing around 1400, that sold for \$320. When all expenses are in and paid there will be a return of about twenty cents on a dollar. The afternoon sale netted \$13,725. Mr. H. E. Kane of Marshfield cried the sale and helped considerable to keep up the sale. Dr. M. B. Wood of Marshfield, Minn., was an interested spectator. He will have charge of our next annual Guernsey sale, which will take place at the big round barn at Marshfield, May 15, two days after the National Guernsey Sale which will be held near Chicago this year.

The following are the names of the purchasers and prices paid: Albert Paulson, Marshfield, 10 head for \$3570; Wm. Durhopp, Marshfield, 3 head for \$970; W. R. Block, Marshfield, 3 head for \$875; Edward Whitely, Vesper, one head for \$335; Cecil Spear, Vesper, one head for \$730; Clark & Jackson, Grand Rapids, 5 head for \$2015; A. C. Klohnhaue, Marshfield, 2 head for \$745; C. W. Porter, Marshfield, 2 head for \$1125; Chas. Ewan, Marshfield, 2 head for \$1010; Wm. H. Marshfield, one head for \$375; L. L. Laddick, Grand Rapids, one head for \$550; E. & B. Kronholm, Grand Rapids, one head for \$455; A. P. Bean, Vesper, 3 head for \$840; Daughters Bros., Pittsville, 2 head for \$120.

Among the animals, distributed were several grandsons and granddaughters of former world champion cows such as Marnie Cowan with a record of 1938 pounds of fat and milk, and Daisy Pea with a record of 957 pounds. The lot also included many line bred May Rose, Masher's Sequel, and Governor the Chene animals. The 33 females should be the fountain of high class animals to be developed in the near future.

PRESIDENT OF SOIL CLUB EXPRESSES APPRECIATION

Grand Rapids, Wis., R. D. 1
Editor of the Tribune,

In behalf of the Wood county branch of the Wisconsin Soil Improvement Association and committee, I am writing to you to thank you for the services rendered, time, and space in your paper.

These gatherings are held purely for an educational purpose and it is impossible to estimate their value. If this community were to practice the many lessons and good sound suggestions given there at that time we will look back to that event with pride, and we realize that these things will not be successful without getting it before the public, therefore please accept our thanks.

L. L. Fargerson, Pres.

A. F. Gervin, a resident of Marshfield for 35 years, and for many years chief of police until retired several years ago, died at his home in that city on Tuesday after a lingering illness. Henry Horn, who ran a drug store in Marshfield years ago and was mayor of the city in 1909, died at St. Joseph's hospital in that city on Friday. Mr. Horn has resided in Loyol the past ten years, where he was engaged in the drug business. Both of these gentlemen were well known to the older business men of this city.

CHAS. BRIERE TO BE IN FIELD FOR MAYOR

Mayor Chas. E. Briere has announced his intention of being a candidate for the office of Mayor in this city at the April election. According to the present outlook he will have no opposition, being very likely to be elected at another date. Mayor Briere is serving his first term as mayor of this city, considerable progress having been made in municipal progress and affairs during his administration. While he has not issued any statement in regard to his candidacy the mayor states that he will be in the field at the April election and will issue a statement in the near future.

The terms of one alderman from each ward in the city will expire this year, E. N. Pomerville as Justice of the Peace will complete his term in April, and City Treasurer Louis Schall will complete his term. Judge Pomerville states that he will run again in April for Justice of the Peace. City Treasurer Louis Schall, not having announced as yet whether or not he will run. The term of the City Assessor, Clark Lyon, also expires in May.

The aldermen whose terms expire this year are John Dambors, Wm. Burell, Lucy Horton, O. R. Rooney, James Lynch, Matt Schleg, Fred Jackson and Mike Lommone.

MRS. FRANK WALSH PASSED AWAY EARLY THIS MORNING

Mrs. Frank Walsh, very well known in this city, died at 4:20 this morning after a two week illness with pneumonia. Mrs. Walsh has been very sick for the past week, rallying at times and encouraging her many friends into believing that she would recover, however, her condition became very bad Wednesday night and she passed away early this morning. Mrs. Walsh was born in Ludington, Michigan, August 7, 1890, being twenty-nine years of age at the time of her death. She was married to Frank Walsh Nov. 3, 1915, having made her home here since that time. Besides her husband she is survived by her mother, Mrs. Edward Boulanger, Manistee, Mich., three sisters, Mrs. Martin Castello of Detroit; Mrs. Chas. Blain, of Detroit; Mrs. O. E. Wright, of Grand Rapids, Michigan, and one brother, Joseph Clavetto, of Maple City, Michigan. The funeral will be held Saturday morning at 9:00 o'clock at the house and 9:30 from St. Peter & Paul church, Rev. Wm. Rodger officiating.

PNEUMONIA TAKES PARENTS OF OAK STREET FAMILY.

Pneumonia brought death to Mr. and Mrs. Walter Koschmann, of Oak Street, on Tuesday, Mrs. Koschmann passing away about 10:30 Tuesday morning. Mr. Koschmann following her in death about twelve hours later. Mr. Koschmann had not been feeling well for some time, his condition being so serious that it was considered best not to tell him, thus sparing him the shock that the information would bring in spite of the pneumonia he succumbed to the disease the same day.

Mrs. Koschmann was born in Michigan and had lived here with her husband during the past five years. She was a model wife and a loving mother, well liked by a large circle of friends. Mr. Koschmann came to this city from Wausau about five years ago, being a traveling salesman and was employed until last fall by Edw. Smith. In November he entered business as a member of the firm of Coffey & Koschmann, being a member of this firm at the time of his death. He was thirty years of age, his last birthday being last Friday, the 13th inst.

They are survived by two small children.

The funeral services were held this afternoon at 2 o'clock at the east side Lutheran church the remains to be shipped to Wausau where they will be buried.

HAD FINE SHOW

What was probably one of the best home talent plays ever staged in this city was put on last Thursday and Friday night at Daly's theatre under the auspices of the Elks Club, entitled "The Time, Place and the Girl." To give special credit to any particular member of the cast would be impossible, every one in the play taking their part with the ease and ability of an old trooper. These in the cast were Dr. Irving D. Peters, C. Herbert Roach, Ray Horvitz, Joe Jernick, Ed. Bassett, Art Madson, John Brundt, Ed. Smith, O. R. Marsh, Neil Nash, Nathalie Desjardins, Margaretta Hagan and Benice Begert. The chorus included Misses Calleen and Eleanor Chamberlain, Marie Schaffer, Ruth Nelson, Marjorie Harrell, Irma Payman, Edna Wilton, Olga Bissig, Jane Taylor, Evelyn Akay, Eleanor Stafford, and Genevieve Gouche.

RUDOLPH GIRL MARRIED

Miss Gladys Ratelle of Rudolph, and Mr. Percy Millenbach, of Port Edwards, were married Tuesday noon, Rev. C. F. Ludwig of the Methodist church performing the ceremony. Miss Pearl Clark was the bridesmaid, while Kenneth Ratelle was groomsmen. Both of the young people are well and favorably known here, the bride being the daughter of Mr. and Mrs. Nic Ratelle of Rudolph, a well known and popular young lady of her community. The groom has made his home at Port Edwards for a number of years, having received his education in the schools of this city. He is an industrious and ambitious young man. They will make their home at Rudolph, having the best wishes of the Tribune and a host of friends here.

Mrs. E. J. Pfiffner, a former resident of this city, died at her home in Stevens Point, Monday after a short illness with pneumonia. Mrs. Pfiffner was the wife of one of Stevens Point's prominent lumbermen, mother of the district attorney, and very well known throughout this part of the state.

A fire caused by a defective chimney at the C. F. Kollogg home Wednesday about one o'clock burned a portion of the roof and caused considerable damage to the interior of the house, smoke and water being responsible for a great deal of the damage.

MRS. HATCH CONDUCTED AN INSTITUTE FOR THE WOMEN

The county nurse, the home demonstration agent, and the matter of child welfare were the principal topics of discussion taken up by Mrs. C. F. Hatch at the Women's Institute at the Wood County Normal and Agricultural school last Thursday and Friday. Mrs. Hatch spoke of the visiting school nurse in the cities the good they accomplished in the way of promoting health, preventing the spread of disease, and watching the care of the children's teeth. The County Nurse, she explained, covered these same fields in the rural districts. Mrs. Hatch outlined the work of the Home Demonstration agent, how she went into the rural communities and helped the farmers and especially their wives, showing the latest and improved methods of canning, the use of labor saving devices in the homes, and the best methods of remodeling and making over clothing. Child Welfare was thoroughly explained by Mrs. Hatch, who told the women the necessity of proper care for infants, and how to hold them properly. The Women's Institute in this city next year but to hold it in a better location, where all the women would attend and get the benefit of the talks.

TRIBUNE BIDS OLD FRIENDS FAREWELL

Owing to the sale of the Tribune and its relinquishment on the first of March to the new proprietor, the present firm of Drumb & Sutor will get out just one more issue of the paper and then bid adieu to the people of this community as newspaper men and from that time on engage in some other occupation.

The present owners have been issuing the paper during the past twenty years and it took back over that time it does not seem very long. It is easy to imagine that it was only a year or so ago since we shook the mud of Marshfield from our number lines and started for Grand Rapids. With the change of ownership the Tribune will be moving down Grand Avenue this morning in May when every foot yard a loose board in the sidewalk would fly up and hit us in the shins, but we were young and ambitious, in those days we did not move more than a few loose boards to discourage us.

It may have been just a trifle old from a business viewpoint in Grand Rapids back in 1900, but we had faith and we were not disappointed, and the results have justified our faith at that time. The people here are a thrifty conservative. That is why they do not meet you at the train with a brass band or anything of that sort, but after you have been here ten or fifteen years and prove to their satisfaction that you really are in business, they are ready to lend you money for anything they can do to help you along.

Some wonderful changes have occurred in and around Grand Rapids during the past twenty years and we are glad that we were here when they occurred, for it has been a source of pleasure to watch each improvement as it has occurred, and to realize that some day there will be a city here that for beauty, both natural and artificial, cannot be surpassed anywhere.

The proprietors of the Tribune have no definite plans for the future, and it is possible that they may be here for some time to come. To say that they regret to leave their connections with the paper and the people of this community does not express it all, but these changes in the life of man seem to come about and it is impossible to avoid them. We thoroughly appreciate the patronage of our many subscribers and we feel that each one of them is a personal friend and it is with sorrow that we bid them good bye and commend them to the mercies of our successor.

ELECTED VICE PRESIDENT

County Agent W. W. Clark was elected first vice president of the Western Wisconsin Brooders Association at their annual meeting at Madison last week. The brooders held their annual sale at the capital during the week, A. P. Bean of Vesper selling a pure bred Guernsey cow for \$750 at the side while Clark & Jackson sold a pure bred Guernsey cow for \$535 at a very high bidder for \$555. Mr. Clark reports a very enthusiastic meeting and a very lively sale.

WANT TO PARK RIVER BANKS

In their annual report to the city, filed with the city clerk, the Board of Park Commissioners recommend that the city acquire the river bank property opposite the T. E. Nash home on Second Ave. So. for parking purposes. They felt that they were not able to buy the boats land adjacent to Robinson park at this time. At their meeting the Park Commission elected Henry Demitz secretary of the board.

CLERKS EXAMINATION

An announcement has been made of an examination for mail carriers and clerks to be held at the Post Office in this city March 13, 1920. The salaries for the positions range from \$1,000 to \$1,500 per year and the examination covers several subjects, including spelling, arithmetic, letter writing, penmanship, copying and reading. Application blanks may be secured by applying at the post-office.

OLD RESIDENT DEAD.

Mrs. Frederica Brumhilde, aged seventy-one years, died Monday night at the home of her son Henry Brumhilde in the town of Saratoga. Mrs. Brumhilde was one of the pioneer settlers of that section, having come there with a young woman with her husband, they having furnished there for several years. The funeral services will be held Friday afternoon at 1:00 o'clock at the Lutheran church at Kellner, Rev. Ladick officiating.

GOING TO THE FAR EAST.

According to the Beloit Daily News D. B. Worthington, formerly of this city but now of Beloit, left this morning for the far east, expecting to touch at Honolulu, and possibly at points in Japan and China, and at Manila, Philippine Islands. Mr. Worthington will make the trip on the U. S. Transport America.

WANTED GIRL—For light house-keeping. Telephone 421.—21.

MAY STILL GET IN HALF OF CO. ROADS

Prospects of still getting in one-half of the proposed trunk line road between this city and Marshfield were seen this week when Dr. Engineer F. F. Mengel received a list of figures from the Wisconsin Highway Commission office at Madison, showing the allotment of money of cement to be given in each county in the state. While the written report given out by the Madison office varied Eng. Mengel's statement in regard to allotting Wood County enough cement to build a half of road on the bond issue, there is one loop hole that may result in the county getting enough cement to double this seven miles, or build one half of the proposed road this year. The one loop hole is that the engineers hold is that some of the work that is being planned for the year will not be done due to the excessive figures that the contractors are bidding in, and the result will be that there will be a second allotment of cement, Wood County being scheduled to get 20,000 barrels on the second distribution.

The present figures which the State Commission give out are that Wood County will be awarded 21,600 barrels of cement for the road work this year, and an additional 9,000 barrels for the bridge. According to Eng. Mengel it requires about 3,300 barrels of cement to a mile for sixteen foot paving, meaning that between six and seven miles could be built with the present allotment. With the additional allotment which might come if work in other counties is held up, the county could build another six or seven miles. Most of the road between here and Marshfield is sixteen feet wide with the exception of a mile stretch in this city, which calls for an eighteen foot pavement.

In other sections of the state on work the bids have been excessive high, and according to the Madison engineers, the bids which were taken here about two weeks ago were the first favorable bids that have been received in Wisconsin since the last time this year and that Wood County may benefit by it.

ROTARIANS TO CELEBRATE THEIR ANNIVERSARY WEEK

Grand Rapids Rotarians plan to celebrate Rotary Anniversary week in this city starting Sunday, when Carl Mahle of Wausau will speak at a public meeting at the Congregational church on next Sunday evening. Mr. Mahle is well known in this city, being interested in the Wausau Sulphate Fibre Co. at Mosinee, and has been prominent in many state activities. Atty. T. W. Drayton will speak to the high school students on the day during the week, while on Friday night the Rotarians will have an evening meeting. The Rotary Clubs thruout the country are celebrating their fifteenth anniversary, the local club being about a year old.

CLEARED OF CHARGE.

Fred C. Ragan, who appeared in Judge Pomerville's court to answer to a charge of assault and battery, brought by W. S. Fishback, was cleared of the charge last Thursday when a jury of five brought in a verdict of not guilty. Mr. Ragan and Mr. Fishback had gotten into an argument over some claims the former had with the express company, the court finding that Ragan hit Fishback in self defense. The jury included Wm. H. Barnes, James Hamilton, Burt Smith, Jos. Weincke and D. J. Gerow.

NEKOOSA MEN IN COURT

Carl Stellmacher, Promises Coon and others were made defendants in Judge Gots Court last Thursday when P. M. O'Brien charged them with racketeering, gambling and disorderly crowd and threatening violence upon his person. The case was adjourned one week coming up today. Stellmacher and Coon are employees of the mill, O'Brien being a union official.

MRS. CAREY GOT DIVORCE

In last week's Tribune it was stated that Matthias Carey was granted a divorce from Phoebe Carey. The article should have stated that Phoebe Carey was granted the divorce from Matthias Carey. Mr. Carey first sued for divorce, Mrs. Carey putting in a counter claim and being granted the divorce.

BROTHERS SERIOUS CHARGE.

Lester Schuoneman was brought into Judge Pomerville's court Friday on a statutory charge, Mrs. Francis Raymo bringing the charge in behalf of her sister, Miss Antoinette Heintz. The case was adjourned one week.

CARD OF THANKS

We wish to thank the many kind neighbors and friends for their sympathy and kindness extended to us during the illness and death of our husband and father. We also wish to express our thanks for the many beautiful floral offerings.
Mrs. Bat Sharkey and family.

The American Legion basket ball team won from the Monroe Legion team Monday night at Mosinee, the score being 29 to 22. There will be a return game played in this city at some future time.

Notice to Subscribers

As the present proprietors of the Tribune will turn the office over to the new owners on the first day of March, it would be a good thing if every person who owes a year's subscription to the paper would drop in during the coming week or ten days and settle the matter up. A rush of work has prevented us from sending out statements for our subscription accounts during the present year, but every person who takes the paper knows that there is a year up every time the seasons roll around, whether he gets a bill or not. Don't be at all backward about paying up.

We deliver flowers to any address in the United States or Canada within a few hours of your placing the order.

Still Fighting Kaiserism in Industry at Nekoosa and Port Edwards, Wis.

In these corporations owned villages the paper makers have been out on strike for the past eight months. Battling against great and unusual odds these workers have stood firm against all the attacks of the exploiters.

They are striving to abolish the old 11 and 13 hour system and other almost intolerable conditions. The workers are but demanding that what is in force in practically every paper mill in the State.

After eight months of strike these workers are as determined as ever to bring the strike to a successful conclusion. Right and Justice are their guiding stars. To be successful they must have the moral and financial support of all the organized workers of this land and especially of the State of Wisconsin.

The battle of Nekoosa and Port Edwards is not only one of a few workers striving for a greater share of the wealth they produce and the right to live as human beings but it is the great battle of organized Paper Manufacturers seeking to crush the organized labor movement of the State of Wisconsin. It is therefore the fight of all the workers.

Back those who are fighting the battle for all of us and back them to the extent of your finances.

Send all contributions to E. R. Schrieber, Treasurer Strike Committee, 554 Tenth Ave., So., Grand Rapids, Wisconsin.

Are they trying to get money under false pretenses?

The people of this vicinity know that the Mills of the Nekoosa-Edwards Paper Company have been on the eight hour tour basis for more than three years.

The Nekoosa-Edwards Paper Company invites comparison of living and working conditions with any other industry, union or non-union, in the country.

GIRL WAS MARRIED HERE; DIED ONE WEEK LATER

Two weeks ago Miss Daisy Adams, who lived near Pittsville, and Mr. Harry Reunbeck, of Clark county, secured the right to find some one to marry them. They located Judge Gents, who performed the ceremony. Six days later Mrs. Reunbeck died, after a short illness of pneumonia, at the home of her parents near Pittsville. The young couple were on their wedding tour when the bride was taken sick. She was taken to the home of her parents, hung between life and death for two days, and passed away last Wednesday night.

LEGION WILL HONOR FAMILIES OF HEROES

Grand Rapids boys, and the boys from this part of the county who gave their lives in France for their country will be honored at Memorial Services which will be held Sunday afternoon, February 22nd, under the auspices of the American Legion. At the service the families of the heroes will be presented with the engraved memorial parchment presented by the French government, signed by President Poincaré. Post Commander R. M. Gibson has received a few of the memorial parchments and while they may be that they are not all received by the time set for the services, the people are invited to be there anyway and those that arrive will be presented, the balance forwarded to the families later.

The parchments are inscribed in French but when translated explain that they are given in honor of the American boys who laid down their lives on French soil. They carry a very fitting tribute to the boys from the French people and are a thing that can long be kept in the homes of the families who lost one of their number abroad.

While the details of the program are not complete there will be music, speakers and subjects taken up suitable to the occasion. It has not been decided where the presentation will be held, this to be announced at a later date.

TRIBUNE SELLS OUT TO WM. F. HUFFMAN

The Grand Rapids Tribune was sold last Saturday morning to Wm. F. Huffman, editor and publisher of the Grand Rapids Leader, the new owner to assume control of the paper, job business and plant March 1st. The deal came as rather a surprise to Grand Rapids people. Mr. Huffman, having but recently purchased the Leader from its former owners. With the acquisition of the Grand Rapids Tribune Mr. Huffman combines the Grand Rapids Leader and the Tribune, the Leader being the only daily in Wood county, and the Tribune one of the strongest weeklies. The Tribune had what was considered the best equipped printing office in Wood county, its machinery being all new and modern and had a circulation that was built up only after twenty years of energetic and progressive newspaper work.

Mr. Huffman will move his plant into the Tribune building and will continue to publish both the Leader and the Tribune in the new place. He has a new Goss Compositing press, a newspaper press capable of turning out several thousand complete newspapers an hour, printed, folded and ready for delivery. With the completion of its installation Mr. Huffman will be in a position to produce an even better paper than he has been in the past, and will have an exceptionally well equipped plant. Mr. Huffman plans to continue in the job business in the Tribune building as well as in the newspaper field, being especially well equipped to carry on a high class job printing business.

The Grand Rapids Tribune has been conducted by the firm of Drumb & Sutor for the past twenty years. From a small weekly with a circulation of about 575 subscribers to one of the strongest weeklies in the county. During the growth of the industry the equipment has been replaced and the plant is considered a very desirable one. When Messrs. Drumb & Sutor took over the plant in 1900 it was owned by E. B. Brundage, who had conducted the paper for many years, but who was compelled to sell out on account of ill health. It was a six column paper at that time, and was printed in the old Tribune building on First Avenue north, the place being where the new Tribune building is located. The Tribune was then in the rear of the Mackinon block on the river bank. Saloons were rather in the predominance on First Avenue north at that time, and owing to the number of saloons and the tough frequenters that habitually congregated in that neighborhood it was often designated as the "Bowery."

Ten years ago the proprietors of the paper completed the building now occupied by the paper and it has since been in its present site on First Avenue south. Quoting from the first issue of the paper published under the firm of Drumb & Sutor, the editorial policy stated: "While the pleasure political campaigns come on, as they do periodically in this great nation, we shall endeavor to make it clear to our readers why we think our side should win, but at the same time we shall endeavor to make it clear to the 'mud slinging' operation that is indulged in by many newspapers at this time. The interests of Grand Rapids and Wood County will be our interests, and anything we can do to help the cheerless and unattractive order to bring the name of our city before the public in its best light."

After twenty years of publishing the Tribune it is probable that the subscribers are thoroughly familiar with the policy of the paper. It is up to this policy, and they retire from the newspaper field in Grand Rapids with the public as their jury. Mr. Huffman, who assumes the ownership of the business is a young newspaper man of excellent moral character, industrious and progressive, and doubtless continue the up-building of the business in Wood county. While he is a comparatively new man in this city he has already made a large circle of friends here and is recommended very highly to the old friends of the Tribune.

JACKSON'S LECTURES PLEASES

Dunn County News—Menominee, Wis.—Principal M. H. Jackson, of the Wood County Training School, added to his already well-established reputation here as an entertaining and instructive speaker, by delivering his lecture on the night of Sunday, Feb. 1, entitled "Over the Alps." As in the case of his previous lectures, Jackson displayed an intimate knowledge of the common people in the countries he has visited, and some of his anecdotes were pathetic while others sparked with humor. He gave an apt and interesting description of the Alps and his account of the Passion Play at Oberammergau is never to be forgotten. New side-lights were thrown on life at Venice and here again the professor showed his unusual faculty of getting in with the common man for he struck up an intimate friendship with a gondolier, though neither could understand the language of the other. On his last visit, Prof. Jackson appeared under the auspices of the Knights of Columbus. He will always be a welcome speaker in Menominee.

J. R. McLaughlin, the veteran cruiser, left on Wednesday evening with his pack and gun shoes for the northern part of the state to estimate some timber.

Mrs. Arthur Goodwin died at Wausau on Wednesday following an attack of pneumonia. She is a daughter of Mr. and Mrs. J. Slatery and formerly lived in this city where she was well known as Nellie Slatery.

Herman "Yuker" Wilt, a cousin and protégé of the famous wrestler, Fred Beal, defeated "Dago" Bob Crowley of Chicago in a wrestling match at the Eagles Hall in Grand Rapids on Friday evening. Wilt took the first fall in eight minutes and the second fall in forty minutes.

Lee B. Margery of the town of Sargento was among the pleasant callers at the Tribune office this morning. Mr. Margery is taking the census out in his town, but reports that the roads are so bad that it is almost impossible to get around at this time.

LAURA PALMER AND HENRY CARLSON MARRIED TUESDAY

Miss Laura Palmer, of West De Pere, and Henry Carlson, of this city, were married Tuesday morning at ten o'clock at St. John's Episcopal church, the Rev. John A. Rockstroff, of Abak, congregation performing the ceremony.

They were attended by Miss Margaret Johnson, as a bridesmaid, while Samuel Carlson, a brother of the groom, was the best man. Following the ceremony there was a wedding dinner served for the bridal party and their immediate friends at the Dixon Hotel, the newlyweds leaving on the noon train for Milwaukee, Chicago, Janesville and De Pere, making their wedding tour to these cities before their return to Grand Rapids to make their home.

Both of the young people are very well known in Grand Rapids, the bride being the daughter of Mr. and Mrs. F. B. Palmer of West De Pere, and Henry Carlson, a brother of the groom, has been employed in Grand Rapids for a number of years. While here Miss Palmer made many friends who are pleased to hear of her marriage. Henry Carlson is a home boy, reared in this city and a member of the Young Men's Christian League. Mr. Carlson has extended his business through Wisconsin and into other states, being a very successful young man with a large circle of friends here. His friends are wishing them every happiness in their future life.

SOLD GUERNSEYS AT AUCTION ON MONDAY

Monday, February 16, should be a red letter day in the Guernsey history of Wood County. On this day three carloads of cattle recently purchased by the Guernsey breeders were sold at auction. The cattle were disposed of to breeders in different parts of our county. Several men purchased their first pure bred females. The sale took place on the farm of A. P. Bean and Clark & Jackson, who were the owners of the cattle. The sale was held in the barn, and as it is impossible to accommodate all of the cattle in one barn, the crowd first went to the home of Mr. Bean and some 23 head that were sold there. Then the crowd went to the Clark & Jackson farm and the sale proceeded.

All of the females purchased were sold, 33 head at an average price of \$400. Ten bulls and bull calves were also sold. Nineteen head of pure bred Guernsey cows were also sold. Several men purchased their first pure bred females. The sale took place on the farm of A. P. Bean and Clark & Jackson, who were the owners of the cattle. The sale was held in the barn, and as it is impossible to accommodate all of the cattle in one barn, the crowd first went to the home of Mr. Bean and some 23 head that were sold there. Then the crowd went to the Clark & Jackson farm and the sale proceeded.

Four females were purchased in New York and were to have been shipped by express but have not yet arrived. Judging from the sale of the females, it is probable that the number of Guernsey breeders that were not able to attend the sale due to weather conditions, I feel confident that one or two more cars of Guernsey cattle will be sold here. The lowest price female was a month old heifer calf selling for \$200, the highest price was an eight year old cow, weighing around 1400, that sold for \$920. When all expenses are paid there will be a net profit of about twenty-five cents on a dollar. The afternoon sale netted \$13,725. Mr. H. E. Kane of Marshfield, 3 head for \$875; Edward Ehlert, Vesper, one head for \$325; Cecil Spear, Vesper, one head for \$325; Wm. B. Wood of Mankato, Minn., was an interested spectator. He will have charge of our next annual Guernsey sale, which will take place at the big round barn at Marshfield, March 15, five days after the National Guernsey Sale which will be held near Chicago this year.

The following are the names of the purchasers with the number of animals purchased and prices paid: Albert Teubner, Marshfield, 1 head for \$3570; Wm. Burhop, Marshfield, 3 head for \$970; W. R. Blockside, Marshfield, 3 head for \$875; Edward Ehlert, Vesper, one head for \$325; Cecil Spear, Vesper, one head for \$325; Wm. B. Wood of Mankato, Minn., was an interested spectator. He will have charge of our next annual Guernsey sale, which will take place at the big round barn at Marshfield, March 15, five days after the National Guernsey Sale which will be held near Chicago this year.

Among the animals, distributed were several grandsons and granddaughters of former world champion cows such as Murne Cowan with a record of 10 pounds of fat, and Spotwood Daisy Pearl with a record of 957 pounds. The lot also included many line bred May Rose, Masher's Sequel, and Governor the Chene animals. The 33 females should be the maintain of high class animals to be developed in the near future.

W. W. Clark, County Agent.

PRESIDENT OF SOIL CLUB EXPRESSES APPRECIATION

Grand Rapids, Wis., R. D. 1, February 13, 1920
Editor of the Tribune,
Dear Sir:
In behalf of the Wood county branch of the Wisconsin Soil Improvement Association and committee for the Farmer's Institute just held I want to thank you for the services rendered, time, and space in your paper.
The gatherings are held purely for an educational purpose and it is impossible to estimate their value. If this community will put into practice the many lessons and good sound suggestions given here at that it is a great help to that event with pride, and we realize that these things will not be successful without getting it before the public, therefore please accept our thanks.
L. L. Ferguson, Pres.

A. F. GERWING, A RESIDENT OF MARSHFIELD FOR 38 YEARS, AND FOR MANY YEARS CHIEF OF POLICE UNTIL HE LEFT SEVERAL YEARS AGO, DIED AT HIS HOME IN THAT CITY ON TUESDAY AFTER A PLEASANT ILLNESS. HENRY HORN, WHO RAN A DRUG STORE IN MARSHFIELD YEARS AGO AND WAS MAYOR OF THE CITY IN 1900, DIED AT ST. JOSEPH'S HOSPITAL IN THAT CITY ON FRIDAY. MR. HORN HAD RESIDED IN LOYAL THE PAST TEN YEARS. WHERE HE WAS ENGAGED IN THE DRUG BUSINESS. BOTH OF THESE GENTLEMEN WERE WELL KNOWN TO THE OLDER BUSINESS MEN OF THIS CITY.

CHAS. BRIERE TO BE IN FIELD FOR MAYOR

Mayor Chas. E. Briere has announced his intention of being a candidate for the office of Mayor in this city at the April election. According to the present outlook he will have no opposition, there being very little talk of another candidate. Mayor Briere is serving his first term as mayor of this city, considerable progress having been made in municipal affairs and during his administration. While he has not issued any statement in regard to his candidacy the mayor states that he will be in the field at the April election and will issue a statement in the near future.

The terms of one alderman from each ward in the city will expire this year. E. N. Pominville as Justice of the Peace will complete his term in April, and City Treasurer Louis Schall, will complete his term. Judge Pominville states that he will run again in April for Justice of the Peace. City Clerk Louis Schall, not having announced as yet whether or not he will run. The term of the City Assessor, Clark Lyon, also expires in May.

The aldermen whose terms expire this year are John Bambers, Wm. Burchell, Lacy Horton, O. R. Roenius, James Lynch, Matt Schlegel, Fred Jackson and Mike Lemmense.

MRS. FRANK WALSH PASSED AWAY EARLY THIS MORNING

Mrs. Frank Walsh, very well known in this city, died early this morning of a two weeks illness with pneumonia. Mrs. Walsh has been very sick for the past week, rallying at times and encouraging her many friends into believing that she would recover, however, on Wednesday morning she passed away peacefully. Mrs. Walsh was born in Ludington, Michigan, August 7, 1890, being twenty-nine years of age at the time of her death. She was married to Frank Walsh Nov. 3, 1915, having made her home here since that time. Besides her husband she is survived by her mother, Mrs. Edward Boulanger, Manistee, Mich., three sisters, Mrs. Maria Castello of Detroit, Mrs. Clara Blain, of Detroit, Mrs. O. E. Wright, of Grand Rapids, Michigan, and one brother, Joseph A. Clavette, of Maple City, Michigan. The funeral will be held Saturday morning at 10:00 o'clock at the house and 9:30 from St. Peter & Paul church, Rev. Wm. Reding officiating.

PNEUMONIA TAKES PARENTS OF OAK STREET FAMILY.

Pneumonia brought death to Mr. and Mrs. Walter Kerschmann of Oak Street, on Tuesday, Mrs. Kerschmann passing away about 10:30 Tuesday morning. Mr. Kerschmann following her in death about twelve hours later. Mr. Kerschmann had not been informed of his wife's death, his condition being so serious that it was considered best not to tell him, thus sparing him the shock that the information would bring. In spite of the precaution he succumbed to the disease the same day.

Mrs. Kerschmann was born in Michigan and had lived here with her husband during the past five years. She was a model wife and a loving mother, well liked by a large circle of friends. Mr. Kerschmann came to this city from Wausau about five years ago, being a tinsmith by trade, and was employed until last fall by Edw. Smith. In November the entire business as a tinsmith of the firm of Coffey & Kerschmann, being a member of this firm at the time of his death. He was thirty years of age, his last birthday being last Friday, the 13th inst.

They are survived by two small children. The funeral services were held this afternoon at 2 o'clock at the east side Lutheran church, the remains to be shipped to Wausau where they will be buried.

HAD FINE SHOW

What was probably one of the best home talent plays ever staged in this city was put on last Thursday night at the Elks Club, the play being the auspices of the Elks Club, entitled "The Time, Place and the Girl." To give special credit to any particular member of the cast would be impossible, every one in the play taking their part with the ease and ability of an old trooper. Those in the cast were Dr. Irving D. Peters, C. Herbert Roach, Ray Herzog, Vic Bornick, Ed. Bassett, Art Madson, John Brannith, Ed. Smith, C. L. Moore, Neil Nash, Nathalie Demitz, Marguerite Ragan and Bernice Egert. The chorus included Misses California and Eleanor Chamberlain, Erna Schaffer, Ruth Nelson, Marguerite Hartl, Irene Playden, Edna Wittenberg, Olga Bissis, Jane Taylor, Priscilla Akey, Eleanor Stafford, and Genevieve Gouchee.

RUDOLPH GIRL MARRIED

Miss Gladys Ratelle of Rudolph, and Mr. Percy Millenbach, of Port Edwards, were married Tuesday morning at ten o'clock at the Methodist church, the Rev. C. P. Ludwig of the Methodist church performing the ceremony. Miss Pearl Clark was the bridesmaid, while Kenneth Ratelle was groomsmen. Both of the young people are well and favorably known here, the bride being the daughter of Mr. and Mrs. Nic Ratelle of Rudolph, a well known and popular young lady of her community. The groom has made his home at Port Edwards for a number of years, having received his education in the schools of this city. He is an industrious and ambitious young man. They will make their home at Rudolph, having the best wishes of the Tribune and a host of friends here.

Mrs. E. J. Pfiffner, a former resident of this city, died at her home in Stevens Point Monday after a short illness with pneumonia. Mrs. Pfiffner was the wife of one of Stevens Point's prominent lumbermen, mother of the district attorney, and very well known throughout this part of the state.

A fire caused by a defective chimney at the C. F. Kellogg home Wednesday about one o'clock burned a portion of the roof and caused considerable damage to the interior of the house, smoke and water being responsible for a great deal of the damage.

MRS. HATCH CONDUCTED AN INSTITUTE FOR THE WOMEN

The county nurse, the home demonstration agent, and the matter of child welfare were the principal topics of discussion taken up by Mrs. C. E. Hatch at the Women's Institute held at the Wood County Normal and Agricultural school on Thursday and Friday. Mrs. Hatch spoke of the visiting school nurse in the city, the good they accomplished in the way of promoting health, preventing the spread of disease, and watching the care of the children's teeth. The County Nurse, she explained, covered these same fields in the rural districts. Mrs. Hatch outlined the work of the Home Demonstration agent, how she went into the rural communities and helped the farmers and especially their wives, showing the latter the newer and improved methods of canning, the use of labor saving devices in the homes, and the best methods of remodeling and making over clothing. Child Welfare was thoroughly explained by Mrs. Hatch, who told the women the necessity of proper care for infants. It was decided to hold another Women's Institute in this city next year, but to hold it in a better location, where all the women would attend and get the benefit of the talks.

TRIBUNE BIDS OLD FRIENDS FAREWELL

Owing to the sale of the Tribune and the removal of the printing plant to the new proprietor, the present firm of Drumb & Sutor will get out just one more issue of the paper and then bid adieu to the people of this community as newspaper men and men of business on engagement in some other occupation. The present owners have been issuing the paper during the past twenty years, and to look back over that time it does not seem very long. It is easy to imagine that it was only a year or so ago since we shook the mud of Marshfield from our number lines and started for Grand Rapids. Well do we remember staggering down Grand Avenue that morning in May when every few yards a loose board in the sidewalk would fly up and hit us in the shin, but we were young and ambitious in those days and it took more than a few loose boards to discourage us.

It may have been just a trifle dull from a business viewpoint in Grand Rapids, but we had faith and we were not disappointed, and the results have justified our faith at that time. The people here are a trifle conservative; that is, they do not meet you at the train with a brass band or anything of that sort, but after you have been here ten or fifteen years and prove to their satisfaction that you really mean business, they are ready to help you in almost anything they can to help you along.

Some wonderful changes have occurred in and around Grand Rapids during the past twenty years and we are glad that we were here when they occurred, for it was here a source of pleasure to watch each improvement as it has occurred, and to realize that some day there will be a city here that for beauty, both natural and artificial, cannot be surpassed anywhere.

The proprietors of the Tribune have no definite plans for the future, and it is possible that they may both be here for some time to come. To say that they regret to sever their connections with the paper and the people of this community does not express it all, but these changes in the life of man seem to come about and it is impossible to avoid them. We thoroughly appreciate the patronage of our many subscribers and we feel that each one of them is a personal friend and it is with sorrow that we bid them good bye and commend them to the mercies of our successor.

ELECTED VICE PRESIDENT

County Agent W. W. Clark was elected first vice president of the Western Guernsey Breeders Association at the annual meeting at Madison last week. The breeders held their annual state sale at the capitol during the week. A. P. Bean of Vesper selling a pure bred Guernsey cow for \$750 at the sale while Clark & Jackson sold a pure bred Guernsey cow for \$355 and a yearling heifer for \$555. Mr. Clark reports a very enthusiastic meeting and a very lively sale.

WANT TO PARK RIVER BANKS

In their annual report to the city, filed with the city clerk, the Board of Park Commissioners recommended that the city secure the river bank property opposite the T. P. MARTIAL LAW IN KENTUCKY; 5 DIE

Fourteen Others Wounded at Lexington as Lynch Mob Is Quelled.

DISORDER BEGINS OVER NEGRO

Assaults of White Girl Put on Trial, Confesses, and Is Sentenced to Death in Record Time—Mob Not Satisfied.

Lexington, Ky., Feb. 11.—Martial law prevails here. Six hundred federal and state troops are patrolling the streets to prevent further rioting, which exacted a toll of five dead and fourteen wounded. Five hundred additional United States troops are en route from Camp Taylor, Ky.

Lexington and all of Fayette county was placed under martial law by Brig. Gen. E. C. Marshall upon his arrival from Camp Taylor with 400 troops of the first division.

Rioting began when a mob bent on lynching William Lockett, a negro, who confessed to the murder last week of ten-year-old Geneva (Hedman), was fired upon with rifles and machine guns by state militia.

The attempt to lynch Lockett was made just after he had confessed to the murder and as the jury found him guilty of murder in the first degree. He was sentenced to die in the electric chair March 11.

The cry, "Let's get him," from a former on the outskirts of the crowd, turned the crowd into a mob which began surging toward the mob which was dropping back in close formation and trained their guns on the mob, which never hesitated.

Adjutant General Devereux, in command of the militia men, shouted a final warning to the crowd and then fired a revolver into the air. It was the signal for the troops to fire.

Soldiers and police fired into the crowd, and a nearby machine gun rattled.

Four men fell at the first volley. The mob, which had surged half way up the steps, pressed back and broke. Quick action on the part of the authorities got the negro out of the building.

Those killed in the clash were B. F. Carrier and L. M. Klag of Lexington, and John Thomas and William Edgington of Versailles.

Among those wounded were J. W. Stansell, W. J. Ross, Otis Sharp, Ernest Duzler, Irwin Owens, Emmett Partridge, Fred Somers, T. G. Wootches, Mrs. E. T. Coss and James Mussey.

The shooting temporarily dispersed the mob and gave the authorities time in which to take Lockett to a place of safety. The mob returned, however, and looted warehouses and hardware stores to get firearms.

CROWN PRINCE OFFERS TO 'PAY'

Notifies Wilson He Will Stand Trial Instead of German Officers.

WILLING TO BE A 'VICTIM'

Telegrama Sent to All Allied Nations—Germany Preparing List Containing Names of Ex-Officio Soldiers Accused of Violating Laws.

Washington, Feb. 12.—Frederick William Hohenzollern, former crown prince of Germany, in a cablegram received by President Wilson, offers to surrender himself for trial by the allied governments in place of the approximately 900 Germans whose extradition has been demanded.

This message was sent from Wieringen Island, Holland, and similar cablegrams are understood to have been sent to the kings of Great Britain, Belgium and Italy, the emperor of Japan and the president of France.

The message to President Wilson is as follows: "To the President of the United States of North America—Mr. Wilson, Washington:

"Mr. President: The demand for the delivery of Germans of every walk of life has again confronted my country, sorely tried for four years of war and one year of severe internal struggles, with a crisis that is without a precedent in the history of the world as affecting the life of a people. That a government can be found in Germany which would carry out the demanded surrender is out of the question; the consequences to Europe of an enforcement of the demand by violence are incalculable; hatred and revenge would be made eternal.

"As the former successor to the throne of my fatherland, I am willing at this fearful hour to stand up for my country. For the allied and associated governments want a victim let them take me instead of the 900 Germans who have committed no offense other than that of serving their country in the war.

"Wieringen Island, Feb. 12, 1919."

Berlin, Feb. 12.—Germany is preparing a list containing the names of allied soldiers and Berlin officials who are accepted by the Berlin government of violations of war law, and plans to submit it as a counter-proposal to the demand of the allies for extradition of Germans who are alleged to be war criminals.

The list is in the course of compilation and it is expected it will be ready for publication and delivery shortly. It will contain specific indictments based upon alleged authenticated material which is on file in the German archives.

It is stated, however, Germany will not demand extradition of the men named in the indictment.

Decision was reached by the committee on foreign relations of the national assembly Monday to support the government's stand declaring "the ethical and patriotic indignation of the German people at the allied demand for extradition of Germans carrying out of extradition measures has been made physically impossible and would produce internal insurrection."

Independent socialist members refused to subscribe to this declaration, adopted at the meeting of the committee, which lasted for three hours in the afternoon.

The government has decided to submit the official extradition list to the first assembly at Leipzig, with instructions to investigate the offenses listed and determine whether the charges made by the allies can be punished under the German criminal or civil codes.

EGYPT 'ROLLING IN WEALTH'

Illiterate Mud Hut Dwellers Make Thousands in Cotton Deals—Automobiles in Demand.

London, Feb. 12.—Egypt is "bursting with wealth," accumulated from cotton, says a correspondent of the Daily Express in Cairo.

"Illiterate natives living in mud huts have made 220,000 sterling out of cotton deals," he continues. "Some have made 100,000. They are buying land at inflated prices and paying off mortgages which are regarded as family heirlooms. One British official says the country has made at least £100,000,000. Naturally there is an influx of new millionaires in Cairo, with a huge demand for automobiles, jewelry, new houses and all kinds of luxuries, but in the provinces many of the newly rich have not changed their standard of living at all."

Lighters Boycott American Ships; Kill Native Foreman.. 300,000 Workers to Be Called Out Next Tuesday.

Board Vessel, Beat Mate and Crew—Consul at Yokohama Appeals to Tokyo for Protection.

Chicago, Feb. 9.—A Yokohama cable to the Chicago Tribune says: "For several weeks serious trouble has been developing in Yokohama harbor between Japanese steamship companies and the United States shipping companies, who have been calling in increasing numbers.

"Last week a lighters boycott was declared against the American line ships. Lighters intended for these vessels scattered were towed away half loaded and sent to the harbor because the firm was given to an American formed lighters company.

"Yesterday the company secured a number of lighters from Tokyo. Last night a tug loaded with Japanese thugs armed with knives and clubs smashed their way onto the lighters and cut them adrift. The thugs then boarded the steamer Lake Glano and seriously beat the American mate and a number of the crew.

"The thugs later visited the home of the Japanese foreman of the American lighters company and murdered him. Consul General Skidmore just has sent a warm demand to the Japanese authorities for police protection for American shipping. Ambassador Morris is taking the matter up with the Tokyo foreign office and with Washington.

"There are now 17 American cargo steamers in Yokohama harbor, and there have been increasing signs of Japanese awakening to the seriousness of American competition in the Pacific."

WILSON CITES POSITION

Asks Democrats to Withhold Decision on Army Training Measure at Caucus.

Washington, Feb. 10.—President Wilson opposes the plan to have the Democratic members of the house at their caucus make an issue of universal military training. The president's views are set forth in a letter to Secretary Baker, transmitted to Democratic leaders in the house. Mr. Wilson says it would be "unfortunate to make a party issue on this subject, particularly since within a few months the party will assemble in convention and decide the principle upon which it deems it wise to commit itself in a national election."

The president says the disturbed state of the world "does not permit such a measure with regard to American obligations, as to allow us lightly to decide upon this great question upon purely military grounds."

There were 637,000 sheep and lambs in 1920 compared to 680,000 in 1919. The total valuation of Wisconsin livestock is listed at \$373,167,000.

Tomah—What is probably the last

between a long and bitter fight between two factions of the village of Rockland, Wis., over the question of incorporation, has just been staged. The fight culminated in a motion on a judgment pending their application and restraining the village from further proceeding toward incorporation. The reasons assigned were alleged irregularities at the election. The motion of the anti-incorporators was denied in the circuit court by Judge B. C. Higbee, and Rockland will at once proceed to incorporate as a village in the usual manner.

Rhineland—That a horde of rats infesting warehouses and other buildings in this city is destroying large quantities of food, is the statement made by deputy state food inspector, G. A. Seydl, Algoma. Citizens are aroused by the report and the Rhine Lander Advancement association has called a meeting to determine some course of action in ridding the city of the pests.

Kenosha—The three babies of Mr. and Mrs. Louis Shimmer died within a period of five days. Louis Jr., 4 years old, was the last to be taken. Death came following pneumonia and influenza. The day before his death, John, 2 years and 9 months old, succumbed to an attack of the same disease and forty-eight hours earlier, Mary, 1 year and 6 months old, had died of whooping cough.

Applenton—To eliminate the necessity

of building four new schools, four school districts in the town of Cleora, Outagamie county, in order to consolidate and erect a central school building. Action of the boards must be ratified by the taxpayers of the four districts. Transportation must be provided for school children, some of who live more than four miles from the proposed school.

Malden Rock—Mr. Thompson, state rural school inspector, in an address delivered at Durand, informed the citizens that unless the city takes more interest in the school school system, it will be unable to build a new schoolhouse and county aid will be withheld from the school and that it will then be unwise to charge tuition.

Marquette—Postmaster L. J. Evans has submitted a plan to the city council for a remembrance of Marquette heroes who fell in the late world war. He suggests that for each one who paid the supreme sacrifice an elm tree be planted on Carey Blvd., the city's best thoroughfare, and that a brass plate bearing the record of the hero the tree memorializes be placed on it.

Oshkosh—The health department has secured a barrel of whisky, which will be taken out of bond by federal order and shipped here for use at the city's emergency hospital. Horicon—The city of Horicon is petitioning the state rat commission for an increase in water rates over the present minimum rate of \$2 per quarter for a five-eighths-inch meter. No change in the minimum rate will be asked. The water plant of the city is under municipal ownership, and since its installation five years ago has been self-sustaining. The present pump of kerosene will not allow a sufficient margin to keep the plant self-maintaining, and an increase in water rates is asked.

Barron—The agronomy department of the College of Agriculture at Madison has shipped four bushels of Scotch field peas to be planted on any one farmer's land in Barron county as a demonstration. The peas are to be given to a farmer with the understanding that he is to return four bushels in the fall. These four bushels will be put out with another farmer the coming year, the plan being to introduce a better grade of peas into the county.

Sheboygan—Mr. and Mrs. August Selsmeyer observed their sixty-fourth wedding anniversary with a quiet family reunion. Both were born in Germany and emigrated to this country at an early age. The couple was married at Sheboygan Falls and later moved to this city, where for a time they conducted the Washington house, a popular boarding house. Mr. Selsmeyer was assemblyman from his district in 1881.

Right-o, Mr. John Bull! To Know Us Is to Love Us

WASHINGTON.—In response to the appeal of the Anglo-American society, Sir George Watson has given the sum of \$20,000 required for the foundation and endowment of a chair in American history, literature and institutions, in order to promote such studies in all the British universities.

The foundation of the chair forms the principal educational proposal of the British program for the tenth anniversary celebration of the Mayflower and the Pilgrim Fathers (1620-1920). The proposal was as follows:

A sum of \$20,000 is required for the foundation and endowment of a chair of lectureship in American history, literature and institutions.

If this sum be given by a single donor, the name of the donor will be associated with the chair.

It is not proposed that the chair shall be exclusively attached to one university, but that it shall be used for the general purpose of stimulating interest and study of America in all the British universities.

Neither will the chair be held permanently by one scholar of a single nationality. The scheme provides that it shall be held, for a period of one to two years, alternately by an American and a British scholar or public man—thus drawing upon the best intellectual resources of the two countries, and securing a variety of treatment of the subjects dealt with.

This novel kind of foundation has been selected by a special committee of the Anglo-American society, under the chairmanship of Lord Glenconner.

The committee is of opinion that this foundation would greatly assist to create in Great Britain a wider knowledge of America today, and of the history, literature and institutions of this great trans-Atlantic commonwealth of English-speaking people.

Virgin Islanders Want Local Civil Government

THE 75,000 people of the three Virgin Islands in the West Indies, which the United States purchased in 1917 from the Danish government for \$25,000,000, think it is high time they should have local civil government. Up to date they have been governed by the United States navy department, which is quite willing to get rid of the job. Congress seems to think that the proposition is worth looking into. At present, the senate recently passed a joint resolution, which the house amended. It was evidently slated for passage and at last accounts was as follows:

"Resolved, etc., That a joint commission to consist of three members of the Senate and three members of the House of Representatives, to be appointed by the Vice President of the United States, and the Speaker of the House, respectively, is hereby created to visit the Virgin Islands and to report fully to Congress as to existing conditions in the said islands, and particularly to report and recommend action by Congress. If need there be, therefore, with reference to whether the present government under executive direction should be superseded by civil government, as provided by Congress as contemplated by act of March 3, 1917 (40 Stat., 1132), said government being now only temporary in character, and by order of the President being now vested in officers of the Navy; also, as to whether the islands should at this time provide for a civil government of the islands by an organic act; also, what, if any, legislation is necessary pending the formation and adoption of an organic act, and as to the general conditions existing in the islands. Said report to be filed at the earliest date practicable, and during the sixty-sixth Congress."

The United States bought the Virgin Islands so that Germany should not acquire them. They are on the way to the Panama canal.

The people of the islands have asked for this commission, their idea being that it should hold hearings and give them a chance to set forth their needs.

Professor's Rocket Makes Old H. C. L. Look Cheap

EVERY Old H. C. L. isn't in it with this new contraption. The invention of a new type of multiple charge, high efficiency rocket that will penetrate the 200 miles of the earth's atmosphere and possibly shoot to the moon is announced by the Smithsonian Institution. The invention is the work of Prof. Robert H. Goddard of Clark college, who has tested it, and prediction is made that it will be invaluable to the science of meteorology.

The highest level so far reached by scientists with existing instruments is 30 miles, accomplished with a free balloon. Professor Goddard believes that his new rocket can be sent completely through the band of the earth's atmosphere and into the ethereal mysteries beyond.

With a rocket of his latest designed type, weighing 1,274 pounds initial mass, Professor Goddard claims it will penetrate to unmeasured heights and lead to great discoveries. The announcement from the Smithsonian Institution states that Professor Goddard is at present perfecting the rebounding mechanism of his rocket under a grant from the institution, and it is hoped that a demonstration of its practicability and value can be made soon.

"The apparatus," says the Smithsonian announcement, "designed and tested by Professor Goddard is a multiple-charge, high efficiency rocket of an entirely new design. The determining factor of the efficiency of a rocket is the velocity of ejection of the gases due to the explosion of the propelling material. Professor Goddard has raised the efficiency of the rocket from 2 per cent to nearly 64 per cent."

"The great scientific value of Professor Goddard's experiments lies in the possibility of sending recording apparatus to moderate and extreme altitudes within the earth's atmosphere. The nature of the higher levels of the air has for a long time been a subject of much speculation."

Carranza Needs a "Vice President" Like "Spot"

WHAT the United States could do for Mexico has been demonstrated by the regeneration of three American republics accomplished by virtual protectorates established by Uncle Sam.

The three republics are Haiti, Santo Domingo, and Nicaragua. In the case of Haiti and Santo Domingo the protectorate was established and is still maintained by force of arms. In the case of Nicaragua it was established by consent, though United States marines have maintained order in the Republic for nearly a decade.

When asked why the Wilson administration had not undertaken the reform of Mexico as it had Haiti, Santo Domingo and Nicaragua, Secretary of State Daniels once explained that there is considerable difference in the size of the jobs.

Haiti is now a going concern, with a complete government of its own, including a president, a congress and an army—all supervised by the United States navy.

Incidentally, the promotion of Sergt. "Spot" (William A.) Miller, United States marine corps, to a lieutenant in the gendarmerie of Haiti has brought forth the fact that he holds the strangest job in the whole corps.

Miller for the last four years has been a constant bodyguard of President Antenorio of the Republic of Haiti. He has become so influential in native governmental circles that he is known as the "vice president of Haiti."

He is always present when Antenorio meets representatives of foreign powers. He is credited with being the real "power behind the throne."

It Would Add to the Deliberations of Congress

SECRETARY of War Baker recently declared himself for "some radical changes" in the administration of the government, including the seating of cabinet members either in the senate or the house of representatives.

He was addressing a meeting of "mothers, wives and sisters" called by the New York League for Political Education.

"I believe members of the cabinet should have seats in one or the other house," he said. "They should be present to defend the policies of their departments. They should have the right of debate without vote, and should answer questions asked of them. But no head of a department should have questions fired at him and then have his department crucified on the floor of either house without the head of that department being present to put in his defense."

"The writers of the constitution tried to aim between the king of the olden days and the mob. They provided for both. They made the president responsible for the government of the nation, but gave him little power. They conferred on congress great powers, but no president could do anything without the consent of congress. The same thing has happened in every administration, even in that of President McKinley, when the strong personal friendship between the president and Senator Hanna, leader of the senate, made harmony nearly possible."

"In every administration, notably in that of Mr. Roosevelt, there has been a clash between the executive and legislative branches."

YOUTH IS FOUND LIVING IN SEWER.

Rats as Companions Had No Terror for This Buffalo Boy.

Buffalo, N. Y.—Living in a sewer, with rats as companions, has no terror for Anthony Kaskinski, sixteen years old. Early one morning he was hauled from his underground apartment by police after the lad had been seen entering a trap to the sewer.

When the police came upon the youth he was sound asleep. He was annoyed at the rude awakening, and wanted to know why he was being disturbed.

While the police were urging the youthful hermit to come out several

"They Never Bit Me Once."

friendly rats ventured forth and watched proceedings from the corner. The young prisoner said he left his home about six months ago. Two months later, he says, he decided that the sewer should be his future home. He had covered the walls with canvas sheeting, had bought an old mattress from a junk man for a bed, had a discarded blanket for covering, and said he was happy.

The lad told the police he had tried several experiments with boys as companions, but that they always were frightened by the rats.

"I never knewed any nicer 'r better rats," he explained. "They never bit me once; maybe that was because I was good to 'em and gave 'em bits to eat. I had two specially good pals with them and then two used to sleep in the mattress with me every night."

MAN ROLLS FOR HALF MILE

Was Bound Hand and Foot by Bandits Who Relieved Him of Valuables.

Los Angeles.—Tied hand and foot and gagged by robbers, who threw him out of his automobile and stole it, J. W. McManus rolled half a mile on a frost-covered road to seek help. His time was two hours.

Reeking wet from his exertions, but with frost-covered clothes, McManus rounded a front porch, rolled into position and then thumped his feet against the steps until the residents came out.

Released, he telephoned the sheriff's office, that, as he had driven toward Long Beach early in the day with four young men who had gone out with him to try the car, with a view to purchase, they had pinioned him and departed with the car, his watch, stickpin and pocketbook.

LOST 'BANKER' IS FOUND

Disappeared From His Home in Pennsylvania Six Years Ago—Discovered in Florida.

Wilmington, Del.—Charles J. Pennock, banker and former state ornithologist, who disappeared from his home in Pennsylvania six years ago, has been discovered through his friends, who led him to write an article for an ornithological journal under his own name. He was discovered living in the forests of Florida, where his only solace in his self-enforced exile was the companionship of his beloved birds.

He was laboring under the delusion that he must bury himself.

Robs Millionaire of His Gun and Trousers

Santa Barbara.—John Percival Jefferson, owner of one of the show places of the millionaire colony in Santa Barbara, filed charges of burglary against James Lawrence, a negro, accused of entering the Jefferson home, "Miraflores," at night and stealing eight quarts of gold, five pairs of trousers, a camera and a watch. The negro was caught in Ventura. He had the loot—except the gun.

Preacher Lost Job for Looking at Girls.

Haddon Heights, N. J.—He could keep his eyes off the girls, was the verdict of the church council against the Rev. John F. Nichols, pastor of the First Presbyterian church. His resignation was demanded, on the ground that he paid too much attention to young women.

Body Buried in Cement Casket.

New Rochelle, N. Y.—In accordance with a stipulation in her will, the body of Mrs. Lydia Morris Woodworth was buried in the cemetery here in a cement casket. Mrs. Woodworth wished to prevent grave robbers stealing her remains.

Must Sleep in Daytime.

New York.—If Michael Alfano wants to rival Caruso he must try it in the daytime. Neighbors complained he caused the loss of sleep and brought him to court.

Bandits Return Watch.

Los Angeles.—Sentimental highwaymen are abroad in Los Angeles. Two armed, masked men held up Fred Pagliano, seventeen, 3508 Crestmont avenue, and took from him his watch. After looking it over, and the boy too, one of the men handed it back to him. "You're only a kid, I guess you need this worse than me," said one robber.

Attire for the Party and Ball

This season the debutante and the subdebutante are coming into their own. After two years of utter neglect the debut pile up is to be paid, and this fall with all past interest due, observes a leading fashion correspondent.

Parties, dinners and dances galore are on the program, one crowding the other so closely that two years' reserve strength would seem a necessity. It seems, too, as if everything had been designed in frocks with an eye to the requirements of the debutante—short skirts, short sleeves, oceans of ruffles and foolish little trimmings—and the matron will have to find something suitable as best she may.

Now, it is a well known fact that seldom does the very young woman favor the type of dress that her elders would choose for her. The adorable youthful models hold no particular charm for the adorable youthful girl, but all this has been cleverly attended to by some one who understands these matters well. The vamp and the baby vamp are out of the running to a great extent, but it is a bit too soon to expect a direct change, so in spite of soft colors and multitudes of ruffles there is frequently a touch of sophistication.

If the very young woman is a bit determined she will finally win, for back in the corners here and there are some deliciously subtle frocks, even to those of black chintilly lace, which no one could possibly call suitable for the debutante unless one should see the modifications as shown in the models.

Colors Fresher and Clearer.

As to colors, the matron again is in for a very hard time if she is to continue in the height of fashion. Be it admitted that the colors are fresher and clearer than ever, they are a trifle difficult for any but the very youthful to wear.

One is struck immediately with the difference in the shades shown for the debutante and those in the regular department. Most of the colors are the tullest, and the pastels shown for the matron is supposed to wear are slightly more than that when shown for the younger woman. Jade color is one of the season's most approved shades and orchid, with a splash of mauve, is also liked.

Tulle is quite evidently the material best adapted to the present modes. In all the afternoon frocks, whether in light colors or dark blues and browns for the street, it asserts itself in the bulging skirts. For afternoon one finds further crispness added by combining organdy with the tulle. Nets of the finest possible mesh are amazingly embroidered in eyelet. The last thing one would expect to see used on net and a thing that would be impossible if the net were not almost as fine as voile.

A combination of three materials proves a success in a linen dress, with the front of the bodice has a vest of the organdy ending in a round table-like apron below the skirt.

Afternoon Gown for Young Girl.

An afternoon gown that the very young girl will just love is one of black chintilly lace, trimmed with soft French blue ribbons that should bring it within "mamma's approval," for they give the dress exactly the air of youth in spite of the matron's black lace of which it is made. At the hips the lace is wired so that it stands out properly, and over this in the front an apron of the lace falls so that it partially obscures the ribbon, which follows the draped line of the apron with a bow here and there.

The sleeves are short, with a deep ruffle of the chintilly, and the bodice is nothing much but a wide ruffle of it about the neck and down the sides of the front.

Ribbon, as every one knows, is a very important item in the list of trimmings this season, and it is watched carefully so as not to get a little tiresome. One very new way to use this form of embellishment is seen on a dress of orange-colored chiffon—rather a pale shade of orange as orange color goes, but by no means faded looking. The ribbon was applied like the crimped edge of an expert caterer's pie. It was simply crimped or fluted and laid about the neck and sleeves of the gown and also in stripes down the sides of the skirt. The ribbon is in the same shade as the chiffon.

The White Crepe Frock.

A white crepe silk frock is trimmed with program all in white in another and attractive manner. Beginning with the skirt, which is in every model the most important point at the present time, we find interesting extensions on the skirt at the sides, which are further supported in the effort to increase the width by the apron of the material covering the entire front of the frock and furnished with loops of the ribbon extended at the sides.

The extensions of the material are merely strips doubled and inset into the sides of the skirt so that they extend like flaps on the sides. The smartest of the frocks have no collars, or, at least, the frocks intended for smart occasions have plain collars, and these following this lead have only a tiny row of the loops about the neck.

Figured materials are among the most difficult to treat, but some particularly smart little frocks, with real dash, are seen in reds and blues in very conventional patterns. The patterned material is not combined with plain probably adds to the smartness. Even the ruffles about the neck and sleeves are fine plaiting of the material, the front of the frock and furnished with loops of the ribbon extended at the sides.

The material of these particular frocks is indestructible, not to the pattern in a white dot, not too large, and set so closely on the ground of red or blue that there is more white than color. The skirt is caught up under, harem fashion, and trimmed with perpendicular ruffles of the same fine plaiting as that used on the bodice.

Pink Tulle Afternoon Frock.

A rose pink afternoon frock is typical of many others and in a very charming way. The silk is the color of a frosty raspberry leaf, with a girle of ribbon of lavender which tones in

to take care of the handsome plaids that have already been worn. In any event, plaids are to be worn, and they will not at all, as is usually the case, be confined to garments for the members of the younger set.

Incidentally, bolero and eton jackets are to be much in the limelight next spring, both for coats and frocks. For southern resort wear some very smart bolero effects are being brought out, one striking example having a striped bolero and jacket of white, blouse of vivid red, and pantalones of red which show the tiniest bit below the skirt, bringing about a sort of modified, harem silhouette.

Waists to Match.

Waists in shades to match winter suits are especially popular. They are most effective when combined with contrasting colors, either by the use of narrow vestees, embroidery of floss and beads or dainty ruffled collars.

So well that one is hardly aware there is any difference of color except that the effect is delicious. The bouffant skirt stands out at the sides as a result of the cordings set in a deep band about the hips. This in the overskirt, for there is a slightly narrower underskirt beneath.

The short sleeves are finished with a bit of the embroidered organdie and

ALL AMERICA IS NOW IN ACCORD

AMICABLE RELATIONS EXISTING DEMONSTRATED IN SECOND FINANCIAL CONGRESS.

MEXICO IS ONLY SORE SPOT

Other Governments of the Western Hemisphere Are Working Together for the Permanent Solution of Numerous International Problems.

By JAMES P. HORNADAY.

Washington.—Whatever the relations between the United States and the world as a whole may be in the future, it can be said with certainty that this country's relations with the nations of the western hemisphere were never before as cordial as they are at this time. If anything were needed to demonstrate the good relationship existing between the governments of the Americas, the meeting of the second Pan-American financial conference, which has just concluded a week's session here, supplied that need. Every government, from the Canadian border on the north to Cape Horn on the south, was represented at this conference. A spirit of oneness so far as the United States, Central and South America are concerned dominated the meeting. The only dissent was Mexico and even with respect to that unruly neighbor there was the general feeling that in time she will behave herself. There is now a sort of unwritten understanding that the United States and the South and Central American governments will work together for the good of each other and for the good of the whole world.

For a good many years the United States and the American governments to the south of her, with the exception of Mexico, have been inclining toward a harmonious family, but it was not until March, 1915, that the first actual step toward complete unity of thought and purpose was taken. On March 12, 1915, President Wilson invited all the American governments to send delegates to a conference with the secretary of the treasury here with a view to establishing "closer and more satisfactory financial relations between the American republics."

Started Five Years Ago.

It thus came about that there assembled in Washington on Monday, May 24, 1915, under the chairmanship of the secretary of the treasury, the first Pan-American financial conference. The subjects submitted to the conference embraced public finance, the monetary situation, the existing banking situation, the financing of public improvements, the extension of public enterprises, the extension of public loan markets, the improvement of marine facilities, the improvement of the canal, the improvement of the waterways, the improvement of the railroads, the improvement of the highways, the improvement of the ports, the improvement of the harbors, the improvement of the airports, the improvement of the seaports, the improvement of the inland waterways, the improvement of Overland

Rough Roads for Wheels Are Smooth Roads for Passengers

WATCH Overland 4 on rough cobbles or unpaved roads. The wheels follow surface inequalities, but the new Triplex Springs give car and passengers remarkable riding steadiness.

They give 130-inch Spring-base to a car of 108-inch wheelbase.

This makes for the gently buoyant road action of a large, heavy car with the economy in upkeep, fuel and tires, and convenience of handling of a scientifically designed light car.

Auto-Lite starting and lighting, door-opening curtains and dash light give but a hint of the completeness and quality which characterize everything about Overland 4.

(Jt. Res. No. 107.)

JOINT RESOLUTION

No. 27, 1919
To amend section 21 of Article IV of the constitution, relating to compensation of members of the legislature.
WHEREAS, At the biennial session of the legislature for the year 1917, an amendment to the constitution was proposed and agreed to by a majority of the members elected to each of the two houses, which proposed amendment is as follows:
Resolved by the Assembly, the Senate concurring, That section 21 of article IV of the constitution be amended to read: (Article IV) Section 21. Each member of the legislature shall receive for his services such sum as shall be fixed at such times and in such manner as shall be prescribed by law. * * * The compensation prescribed for members of the legislature immediately prior to the adoption of this amendment shall continue in force until changed by the legislature in a manner consistent with the other provisions of the constitution, now, therefore, be it Resolved by the Assembly, the Senate concurring, That the foregoing proposed amendment to the constitution of the state of Wisconsin be and the same is hereby agreed to by this legislature.

NOTES.—(If ratified this amendment will authorize any legislature fix the compensation of members of the succeeding legislature at more or less than the present allowance of \$600 for the term of two years) (Jt. Res. No. 100, S.)

JOINT RESOLUTION

No. 28, 1919
To amend sections 6 and 7 of article VII of the constitution of the state of Wisconsin, relating to circuit judges.

WHEREAS, At the biennial session of the legislature for the year 1917, an amendment to the constitution was proposed and agreed to by a majority of the members elected to each of the two houses, which proposed amendment is as follows:
Resolved by the Assembly, the Senate concurring, That section 6 of article VII of the constitution be amended to read: (Article VII) Section 6. The legislature may alter the limits, decrease or increase the number of circuits, making them as compact and convenient as practicable, and bounding them by county lines; but no such alteration, decrease or increase shall have the effect to remove a judge from office in case of an increase in circuits, the judge of judges shall be elected as provided in this constitution and receive a salary not less than that here provided for judges of the circuit court.

Section 7. For each circuit there shall be chosen by the qualified electors thereof one or more circuit judges, as the legislature may from time to time, authorize. * * * Every circuit judge shall reside in the circuit from which he is elected and shall hold his office for such term and receive such compensation as the legislature shall prescribe; now, therefore, be it

Resolved by the Senate, the Assembly concurring, That the foregoing proposed amendment to the constitution of the state of Wisconsin be and the same is hereby agreed to by this legislature.

NOTES.—(If ratified this amendment will permit the legislature to abolish any judicial circuit at the expiration of the term of its circuit judge, to decrease the number of circuits by consolidation or otherwise, and to authorize one or more judges for any circuit.)

YOUNG PEOPLE WERE WED
LAST SATURDAY MORNING
Miss Gladys Feigel and Mr. Wm.
Mitchell, both well known young
people of this city, were married last
Saturday morning at 11 o'clock.
Rev. C. F. Ludwig of the Methodist
church performed the ceremony.
They were attended by Mr. and
Mrs. Gus. Feigel, brother and sis-
ter-in-law of the bride. After the
ceremony the bride and groom and a
few friends enjoyed a wedding dinner at
the home of the bride's parents,
leaving on the noon train for a wed-
ding tour to the cities, expecting to
settle down in Janesville or Beloit.
The groom having been employed in
the latter place.
Both of the young people are well
known in this city, the bride being
a daughter of Mr. and Mrs. Fred
Feigel of this city. She has made
this city her home the greater part
of her life, was educated in the
schools of Grand Rapids, and until
the time of her marriage was em-
ployed in the office of C. E. Boles.
The groom is a son of Mr. and Mrs.
Fred Mitchell, a well known young
man of the city who served with the
United States army and for a few
years during the war, later going to Beloit
where he has held a good position.
The Tribune wishes them many
friends in wishing them happiness.
WED IN MICHIGAN
The Tribune is in receipt of the
following clipping from the Scotts-
ville, Michigan, paper, which Martin
Oliver, a former resident of this city
sends:
A pretty home wedding took
place at 5 o'clock on Wednesday after-
noon at the home of Mr. and Mrs.
Martha Ann at Amber when Ray, P.
C. Dunbar of Scottsville, united in
marriage Miss Anna Forslund to
Carl Theodore Brandt.
The bride was most charming in
a dress of georgette crepe over white
satin. A bridal veil completed her
costume and she carried white roses.
Miss Ella Johnson, maid of honor,
wore a dainty gown of pink and she
carried pink roses. Charles Nelson
was the bridegroom's attendant.
The ceremony took place under a
huge wedding bell and the mellow
light of candles suspended from the
ceiling in two large chandeliers
blending harmoniously with the
pink and white decorations of the
living room and dining room. After
the ceremony the guests repaired to
the dining room where a four course
dinner was served at a table artifi-
cially adorned with a bride's cake,
saxaul and out flowers.
Best wishes are being forwarded
to the couple from their numerous
friends. Mr. and Mrs. Brandt are
for the present making their home
with the bridegroom's parents, Mr.
and Mrs. J. G. Brandt, Amber.
GRAND RAPIDS HIGHS LOST
TO WAUSAU LAST FRIDAY
Grand Rapids lost the fastest bas-
ket ball game played on the Lincoln
floor this season when the Wausau
five defeated them by an 18 to 10
score. The game was very fast dur-
ing the first half. Referee Victor
S. Thompson of Stevens Point mar-
ried it somewhat from a spectator's
standpoint during the last half by
calling an excessive number of minor
fouls on both sides. Three men
were disqualified during the game
for having four personal fouls to
their credit. Mounier and Matthews
being taken out of the Grand Rapids
team, and Wausau removing one
man.
The game opened up fast, the lo-
cal team displaying more speed than
they have been exhibiting this sea-
son. They started the scoring when
Millenbach made a long shot, putting
Grand Rapids in the lead with a 2
to 0 score. Wausau came back
promptly with a field basket, Moun-
ier scoring a second field basket for
the local team a short time later.
Another field basket and a free
throw put Wausau one point in the
lead, Millenbach later coming back
with a field basket and Wausau do-
ing the same, the score of the half
being 7 to 6 in favor of Wausau.
The last half had no more than
started when the game reverted into
a series of free throws, Wausau
making five during the last half, the
local men being unable to find the
basket. Wausau made three field
baskets during the latter period, the
local boys making two.
The Grand Rapids and Wausau
second teams playing an opener, the
Wausau boys winning that game also.

ANOTHER RUDOLPH
PIONEER HAS DIED
Bat Sharkey, one of the first set-
tlers in the town of Rudolph, died
Sunday at his home in this city after
a lingering illness. He has been
confined to his bed for the last four
weeks, gradually losing strength un-
til he died Sunday. Bat Mr.
Sharkey lived until the fourth day
of March he would have been
seventy years of age. Mr. Sharkey
was very well and favorably known
throughout this community having been
for many years actively interested in
the farming community to the north
of this city, and has reared a family
which has gone forth to the north
and northwest living up to the early
traditions of progressiveness estab-
lished by their father.
Bat Sharkey was born near Mon-
treal, Quebec, March 4th, 1850. He
lived there but a short time when he
came with his parents to Rudolph,
being about three years of age. They
cleared a place in the forest north of
this city and settled there, at that
time there being practically no farm-
ing in the neighborhood and very lit-
tle in the way of other activities.
Later the lumbermen entered the
Rudolph country, Mr. Sharkey hav-
ing grown to young manhood at that
time. He entered the lumbering in-
dustry, being for many years as-
sociated with the Clark & Scott
Lumber Co. at Rudolph, becoming
well known to the older lumbermen
of the pioneer days.
Later he cleared up his farm in
Rudolph and for many years fol-
lowed agricultural pursuits, having one
of the best farms in that part of the
country. In 1909 he sold the place
and went to Canmore, Alberta, Can-
ada, where he farmed for about six
years, coming back to this city in
1915. Mr. Sharkey was married
when a young man, eleven children
surviving him. Later when they
moved to Canmore Mrs. Sharkey died,
her death occurring Jan. 27, 1913.
Upon his return to this city Mr.
Sharkey was married to Mrs. Elliott
they having resided here since that
time.
The surviving children are Mrs.
Guy Barber, Milwaukee; Mrs. L.
Gonchoe, Bitter Lake, Alberta; Er-
nie Sharkey, Irma, Alberta; Clarence
Sharkey, Pomeroy, Wash.; Dave
Sharkey, City; Mrs. W. J. Berard,
City; Emil Sharkey, Hanna, Alberta;
Mrs. Gus Lundh, Calgary, Alberta;
Mrs. J. A. David, Canmore, Alberta;
Oswald Sharkey, Medicine, Wis.; and
Miss Vida Sharkey, city.
The funeral was held Wednesday
morning at nine o'clock from St. Pe-
ter & Paul Catholic church, Rev.
Burling conducting the services.
Burial was made in Calvary cem-
etery. All the children were here for
the funeral.
WIS. SOIL IMPROVEMENT
ASSN. MEETS FEBRUARY 28
The annual meeting of the Wood
County Branch of the Central Wis-
consin Soil Improvement association
will be held in this city on Satur-
day, February 28th, at 2 o'clock in
the afternoon in the court room at
the court house. President L. L.
Ferguson states that there are a
number of things that are coming
up that will be of importance to
every member, including the annual
election of officers.
There will be arrangements made
at the annual meeting for the dem-
onstration plots that will be put in
on different farms throughout the coun-
ty, along with other portions of the
year's work that will be laid out and
arranged. There has been consid-
erable interest expressed in these dem-
onstration plots, a number of farm-
ers being just a little bit skepti-
cal about the advantages of using
lime stones and fertilizers to im-
prove their soils. Farmers that
want to see a demonstration plot go
into their community would do well
to come to the meeting and put in a
request for one.
All the members are specially ur-
ged to come to the meeting and those
who are interested in soil improve-
ment but who haven't joined are re-
quested to be present also.

Simply Worn Out

How Many Women Are Like This?
Can anything be more wearing for women than the ceaseless round of household duties? Oh! the monotony of it all—work and drudge; no time to be sick; tired, ailing, yet cannot stop. There comes a time when something "snaps" and they find themselves "simply worn out," and to make matters worse, have contracted serious feminine disorder which almost always follows the constant overtaxing of a woman's strength.

Then they should remember that there is no remedy like Lydia E. Pinkham's Vegetable Compound—the experience of these two women establishes that fact:

Cedar Rapids, Ia.—"After the birth of my last child I had such painful spells that would wake me every night for my household work. I had to stop for months and the doctor said that my trouble was organic uterus and I would have to have an operation. That was a awful thing to me, with a young baby and four other children, do you say? I thought of Lydia E. Pinkham's Vegetable Compound and how it had helped so many women. I bought a bottle of it and took it as directed. I feel like a new woman, able to take care of my household and family without any trouble or a day's pain. I am now a healthy, happy woman. I am forty years old and have never had a day's trouble of any kind for three years."—Mrs. H. K. Koenig, 617 Ellis St., Cedar Rapids, Iowa.

SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really cures kidney ailments, a medicine for the kidneys, liver and bladder.

Dr. Kilmor's Swamp-Root stands the highest for the reason that it is proved to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because it cures kidney ailments by the use of a mild and immediate effect. It is a gentle, healing vegetable compound.

Swamp-Root is sold at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmor, c/o, Buchanan, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

GAY AND POPULAR RESORT

Blarritz, in Southern France, noted as the scene of European frivolity and fashion.

One of the gayest and most popular watering resorts of Europe is Blarritz in France, about forty miles from the Spanish border. Its nearness to Spain has colored its language and architecture somewhat, giving it the picturesque quality of a Spanish town.

Blarritz is a beautiful place, with its cream-colored, red-roofed villas, dark pine trees, winding walks and crescent of white sandy beach guarded at either end by high, rocky bluffs, rising abruptly from the sea.

Before the war it was the scene of frivolity and fashion, rivaling Monte Carlo in its gambling, dancing and display. It was a favorite resort with one of England's more playful kings in his lighter moments.

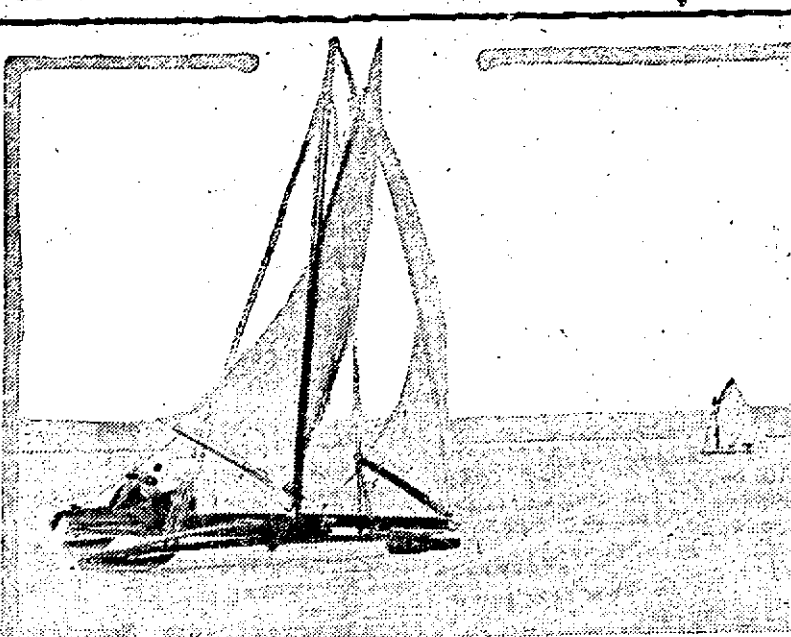

Indeed, its main street is called Rue Edouard VII in honor of him. The war brought a sudden change of mood to Blarritz. Its gambling casinos and hotels were turned into hospitals for wounded French, and later American soldiers. Grim convoys of warships passed close to its shores on their way through the Bay of Biscay.

Numerous ships were torpedoed in sight of the shore by the German submarines lurking along the Spanish coast. The coast was heavily mined and from time to time the detonation of a mine would shake the town.

The Reason.
"What are you staring about so for?" "We're having a thundering good time."

Barking dogs never bites but one always remembers exceptions.

STADIUM TRACK AT ANTWERP

It is 410 Meters in Circumference, About 25 Feet Over Quarter-Mile to the Lap.

The Antwerp stadium track, where the Olympic games are to be held next year, is 410 meters in circumference, about twenty-five feet over a quarter-mile to the lap. In width it is twelve meters, nearly forty feet. It will be possible for twelve men to run in heats in the sprints. The straightaway in front of the tribune is 120 meters. The swimming pool is 100 meters long, nearly 110 yards.

ANSON MADE VICTIM OF ODD TRICK PLAY

Gore Got Even With Old Boss for Transferring Him.

Performance, Engineered by Center-fielder and Buck Ewing, Flood Out as One of Shariest Pieces of Strategy at Time.

There have been many freak and tricky plays in baseball, but there was one engineered years ago by the late Buck Ewing and George Gore, two popular Giants of the early eighties, in which Pop Anson, the famous old leader of the Chicago White Stockings, fell a victim. The play took place on the old Polo grounds, then located at One Hundred and Tenth street and Fifth avenue. The performance stood out as one of the shariest pieces of baseball strategy at that time. Gore had been let out by Anson, and while he did not object to playing with the Giants, he looked upon his transfer as a reflection on his playing and so was determined to get even with his old boss. He never overlooked a chance when one presented itself.

In the game in which this freaky play was made the score was even at two all. Anson led off in the sixth inning with a two-base hit along the third-base line and then proceeded to take a long lead off second. Pfeffer was the next batter, and as he was a natural left-field hitter, the outfield was drawn way over in that direction, the right fielder being almost at the center field position, while Gore in center was drawn well in almost back of the infield, the left fielder, of course, playing his field very deep.

That was the situation as Anson, hopped about between second and third, anxious to get off with the crack of the bat. And right here is where the cunning Gore and the brilliant Ewing worked the cruel trick on the Chicago boss. The coaches were following instructions to Anson.

LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly back-ache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

PLANS INTERNATIONAL RACE

Chicago Yacht Club Seeks Contest With Royal Canadian Yacht Club of Toronto.

The Chicago yacht club plans an international race with the Royal Canadian Yacht club of Toronto. The start of the war in 1914 prevented the Chicago challenging yacht Valiant trying to win back the Yacht Racing Union trophy, won by the Patricia of Chicago in 1912.

Will Stick With Iowa.
While Quarterback William Kelly, of the University of Iowa, has been appointed to West Point, he will not accept, because he has been elected captain of the Iowa team for the 1920 season.

Home Runs in National.
Last season 206 home runs were made in the National league as follows: 53 in Philadelphia; 45 in New York; 22 in Brooklyn; 20 in Boston; 19 in St. Louis; 17 in Chicago; 15 each in Pittsburgh and Cincinnati.

Lelivelt Goes to Omaha.
President William A. Rourke of the Omaha Western league club, has definitely closed the deal with Minneapolis, by which he secures Jack Lelivelt, who will be installed as manager of the Omaha team for 1920.

Wrestlers Want More Money.
The wrestlers, fired by the amazing sums being offered for the Dempsey-Carpenter bout, are demanding more recognition. Earl Caddock wants \$50,000 for a match with Joe Stecher for the championship.

Specializes at Back Stroke.
Harold Kruger, of Honolulu, who is swimming this season for St. Mary's college, Oakland, Cal., has decided to specialize at back stroke sprinting in preparation for the Olympic games races next year.

Eddie Herr as Scout.
Eddie Herr, who managed the Salt Lake team in the Pacific Coast league last season, has signed with the Detroit American league club as a scout.

Dauss Signs for 1920.
George Dauss has signed his 1920 contract. He says he will win at least 21 games next season.

Race at New London.
The 1920 Yale vs. Harvard rowing chaise will take place over the New London course, June 25.

GIRLS! A MASS OF WAVY, GLEAMY BEAUTIFUL HAIR

Let "Danderine" save and glorify your hair

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft, glossy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then moisten a soft cloth with the Danderine and draw this through your hair taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous, fluffy and so easy to comb. All dust, dirt and excessive oil is removed.

Let Danderine put more life, color, vigor and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair and help your hair to grow long, thick, strong and beautiful.—Adv.

Fiery Itching and Burning of Skin Is a Most Cruel Torture

Sure Speedy Relief in S. S. S.
Why suffer from these persistent tortures when it is so easy and costs so little to do as thousands of others have done and get relief through S. S. S.? It is now well known that eczema comes from the blood. By giving the blood a thorough cleansing you not only get sure and speedy relief but you also build up the system and renew your vigor and vitality. This good medicine has stood the test of 50 years as one of the greatest blood cleansers known. It is guaranteed entirely free from minerals of any kind. The experience of others has established the unfailing merit of S. S. S., and there's no question about the wisdom of your giving it a thorough trial. All reputable druggists sell it. If in doubt as to your case write to Medical Advisor, Swift Specific Co., Dept. 54, Atlanta, Ga.

Her Health Was Not Left to Chance

The cows that make the big milk records are well fed and well bred, to be sure. But above all, they are in the pink of condition. The constant strain of heavy milk production will wear down the vitality of the digestive and genital organs in the best of cows, and the result is such ailments as Abortion, Retained Afterbirth, Eczema, Scouring, Bunches and Milk Fever. Any of these diseases can be successfully treated and eliminated with KOW-KURE, the great cow medicine. The medicinal properties of this famous remedy act directly on the organs of production and reproduction, putting the cow's system back to normal, healthy action. Feed dealers and druggists sell KOW-KURE: 60c and \$1.20 packages. Consider cow-health first, and your dairy will be a leader, and a money-maker. Our free booklet, "THE HOME COW DOCTOR," will give you valuable pointers on how to treat and prevent cow diseases. Ask for your copy. Dairy Association Company, Emporium, Vt.

Health Pays!

This perfect three-year-old Jersey has a yearly milk record of 17,793 lbs. Nothing short of 100% health would make such a record possible.

Try raising the health standard of your cows! It will increase your milk profits.

What's What in Tractors

THE PASSING OF STEAM

Steam began to give way to gas about 1900.

As soon as a demand arose for a tractor to do something on the farm beside operating a threshing machine or a corn sheller the limitations of the steam tractor counterbalanced its advantages and it was slated to go.

The transition period from steam to gas filled about the ten years between 1900 and 1910. This period was characterized by the abortive attempt to substitute the big gas tractor for the big steam tractor. This failure was necessary, perhaps, because out of it grew the agricultural tractor and the power farming idea.

The steam tractor answered all purposes very well when it could stand between a coal pile and a well. But move it a few miles out onto the prairie away from these things and it had to be cared for like a baby, fuel and water in a never ending stream had to be taken to it. The limitation of steam agriculturally applied, began to manifest itself as soon as the tractor exercised its power and got away from its base of supplies.

Obviously some other solution was demanded. Continued next week Watch for it

DOUBTS IF O. J. LEU HAS CHAMPION COWS

"O. J. Leu has champion cow for Wood County."

Two weeks ago under the above heading an article appeared in the Tribune in which Mr. Leu stated that he had the highest record cow in the county and gave the record of fat and milk. He also claimed to have the three highest average cows in the county. In my travels around the county several men asked me how these records were arrived at. Our cowmen left and our association was discontinued four or five months before the year's work was completed. I was secretary of the association and all reports were handed to me. I do not have nor could possibly have any information that would show that Mr. Leu's records were the highest in the county or that he had the highest average. I am not questioning that Mr. Leu has some good records, but when he states that he has the highest cow in the county and the three highest averages in the county, knowing as I do that the association lacked something like five months of finishing the year, I question the method of arriving at these records.

One of Mr. Leu's cows one month made something over 100 pounds of fat, according to the report turned in. This was so unusual that when the report was sent to Madison, Mr. Harris who has charge of the testing, sent an official tester to make a check test. According to this check test made by an official tester sent out by the College of Agriculture, this same cow produced about 24 pounds less per month. With such a mistake in the record I doubt the advisability of accepting the record as being the record of the champion cow of Wood County. It takes in a little too much territory. Mr. Leu also states that these records were made without milk feed during the summer time. Now personally, when a man can convince me that he has cows that will produce close to 100 pounds of fat on pasture with no grain, I feel as though I would like to buy a dozen of them once. You have probably heard the story of the old farmer who went to the first circus. He looked at the giraffe, he looked at his neck up and down, and then said, "There ain't no such animal." We expect in the near future to have two or three good live testing associations running again. We will put the rate up high enough so that we will be able to hire competent men that will stick for the year. We will then be ready to find out who has the champion cow of Wood County.

MANY FARMERS HERE TO ATTEND INSTITUTE

The First Big Annual Farmers Institute held in this city, combined with the display of machinery and manufacturers, was closed last Friday night, more than one hundred and twenty people having been in attendance at the afternoon session. The promoters and the speakers who talked here were more than pleased and while the attendance was held down some by the bad roads, those who were in expressed their complete satisfaction and the belief that next year will see even a much larger attendance.

F. J. Musbach, who is in charge of the State Experiment Station at Marshfield, spoke Friday afternoon on "Developing the Soil with the Dairy Cow."

"Soil fertility means the ability to produce crops. It is not concerned entirely with supply of plant food, nor with drainage nor tillage, nor the supply of organic matter, but is concerned with all of these factors and others; some of which are not entirely understood," Mr. Musbach stated.

He explained that even that the crop producing power of a soil might be maintained or even increased and at the same time the plant food supply decreased. For an example Mr. Musbach explained that a field devoted to corn year after year soon becomes non-productive on account of the low yields. Introducing a grain crop into the rotation so that corn alternates with oats, and the yield of corn at once shows a marked increase, increasing the yield but reducing the plant food supply of nitrogen, phosphorus, potassium and other important chemicals to a greater extent than where corn had been grown year after year.

In interviewing the farmers who are now occupying farms that have once been grazed largely but in which dairying is the important business, they almost invariably say the yields have been doubled or even tripled since the dairy cow has occupied such an important place in farm husbandry. Mr. Musbach stated, "Increasing the yield is commonly but erroneously understood to mean increasing the fertility of the soil. There is no disputing the question that there is no system of farming by which the fertility may be maintained so easily as through dairying. On the other hand, it should also be stated that the practice of raising grain exclusively has not on a matter of fact reduced the supply of plant food to such an extent as is commonly supposed. The mere fact that low yields have been obtained does not mean the supply of plant food has been reduced to the point of non-productiveness. In fact, the analysis taken from some farms shows quite a contrary result."

"The nitrogen supply can be increased or at least maintained thru the growing of legume crops, he explained. The phosphorus supply, however, cannot be increased thru the growing of any crop, but can come to the farm from only two sources, one thru the use of concentrates and the other thru using a phosphorus bearing fertilizer."

Mr. Musbach told how Denmark made such an enviable dairying reputation thru the proper use of phosphorus in intensive farming. The fact that Wisconsin farmers have to face he stated, is that unless large amounts of concentrates are used the phosphorus, the only other alternative being the extensive use of commercial fertilizers.

C. S. Ristow, of Black River Falls, speaking on Soy Beans, for light soils, recommended the Ho San bean, and recommended very highly the use of soy beans on light soils. They take the place of clover, he explained and are good as alfalfa for hay. Mr. Ristow explained the importance of inoculation and shallow planting. If planting for seed he urged farmers to sow about 20 pounds to the acre but for hay they should be planted thicker. When actually figured out they are as cheap to plant as oats, he explained, and put nitrogen back into the soil rather than taking it out.

In speaking on "Caring and Feeding the Dairy Herd," Mr. Ristow said that too many farmers didn't use their cows right, feeling some times that they couldn't afford to feed her too much. He told them that a cow wasn't much different than an engine, and while you might get a steam engine to turn itself over by putting in a certain number of shovels of coal, that would barely make it run and would produce nothing for the engineer, while an extra shovel full would be the necessary one to start production. The cow requires so much feed to live on he explained, and it is not until you get over this amount that the actual production starts. He urged dairymen to warm the animals water in winter before giving it to them to drink, giving them the cold water chills them, requiring energy that might better be used for making milk, to heat them up.

W. W. Clark spoke on the problems Wood County farmers are facing, while E. W. Ullsperger dealt with "Management of Light Soils," "Use of Limestone on Sand, Marsh and Clay Soils," "Use of Fertilizers on Sand and Marsh Soils." Mr. Ullsperger is an authority on light soil problems and gave some very good talks.

Mr. and Mrs. Art Henke are both ill with influenza.

Why Do the Boys Leave the Farm? Why is it Hard to Hire Men?

Because your boy does not like the drudgery of milking. It is the same old disagreeable process, morning and night. From one year's end to the other.

When you try to hire a man, his first question usually is, will I have to milk? If you say yes, chances are you can't get him. But tell him you have an Empire Milker and he comes quick.

EMPIRE SUPER SIMPLE PULSATOR

When the Empire people came out with this wonderful new pulsator, it marked the longest step forward in milking machines since the first milker was made.

ONLY FIVE WORKING PARTS

Just think of it. So simple that a mere child can operate it. Can't get out of order, no pistons, no leather washers to wear and leak.

Buy an Empire and see how differently your family will look on the milking proposition. Drudgery will be turned into a pleasure and your milking cost will be cut in half.

Let us show you this wonderful machine or send for catalog. Its free.
